Introduction

Alma Sweater is designed to fit with 2-4cm (¾ - 1 ½ in) of positive ease at the bust. It is worked seamlessly from top down. First collar is worked in rounds (optional), and then brioche yoke is worked in rounds to sleeves separation. The lower body is worked in rounds to bottom. Sleeves are worked top down. The length of the body and sleeves is easily adjustable. **IMPORTANT: if your gauge is smaller than recommended in the pattern, please opt for a bigger size!!**

Pattern Notes

- One color is used for one round; do not cut yarn at the end of the rounds but carry it up to next rounds on WS.
- Change color in ch1 in the beginning of every round, unless otherwise stated in the pattern.
- FPdc are always made around sts of same color from 2 rounds below.
- **Please, pay attention where exactly the very first st of the rnd is worked. Read notes in the beg of the rnds carefully. First FPdc of each round is worked around st of same color directly below join** (unless otherwise stated in the pattern)
- Ch1/ch2-sps behind front post stitches will be always skipped.
- Work in a relaxed way, the fabric should not be stiff.
- TIP: use stitch markers to mark last st of every repeat to easily stay on track with the pattern.

Pattern repeats:

[...] rep instruction inside [...] as many times as indicated in the pattern.

*...; rep instruction after * as many times as indicated in the pattern.
