If this is your first time working up a tunisian-lace shawl, I would suggest, before starting into the shawl, trying a little practise piece using smaller, linked 2-uple treble sts.

Instructions for working linked 2-uple treble stitches:

Make 11 chain, sc into 2nd ch from hook, and sc to end. This will give you a foundation to work your practise piece on.

Start the row of linked 2-uple trebles (L2tr):

Chain 3, work into the back loop of the 2nd chain from hook on the turning chain, insert hook, yo, pull through, repeat for 3rd chain from hook, insert hook into closest available stitch space, yo, pull through. You should have accumulated 4 loops on your hook. *yo, pull through 2 loops*, repeat until left with one loop (1st first stitch completed).

Second and every subsequent stitch:

The stitch will have two, parallel, horizontal lines up its length. Insert hook into closest horizontal line, yo and pull through. Repeat for other horizontal line. Insert hook into closest available stitch space, yo, pull through. Work the four loops now on your hook as for the first stitch.

Notes on working larger linked stitches:

Work similarly to a linked-2-uple treble (explained above), but begin with the number of chains specified in the pattern. This will give more "yo and pull through"s, and will result in a taller stitch, with more horizontal lines up its length.

Chart Reading:

I have uploaded a video here: www.youtube.com/watch?v=mlqzkNaIOWA to help with reading charts. It includes basic chart symbols, and instructions on creating the stitches themselves.

Pattern Begins:

With Main colour,

Make 199 chains.

It is recommended that you use the stretchy chain method explained here:

https://www.youtube.com/watch?v=_DXk9HuWnYc

as it will make blocking easier, but a regular chain stitch will also do fine in a pinch.

Row 1. Make 8 regular chains, 1 L7tr, *Chart A* 9 times, 1 ch, turn.
