If you need help with the pattern, please consider joining my FB group, **TINNA'S CROCHET CLUB**, where me and my admin team are happy to help you out.

You can also check out my YouTube channel for visual support.

Just search for **TINNA CROCHET** there!

This Pattern has been designed and written by Tinna Thorudottir Thorvaldar. Please do not share, copy or redistribute this pattern without permission. This way you contribute to the growth of the creative crochet community and support the designer.

You are welcome to sell your finished items, but please give Tinna credit.

Progress photos in this pattern are by my friend Jui Tawade

Arabia

After visiting Morocco in my early twenties, I've ever since been totally fascinated with Arabic architecture, motifs and patterns. I find them mesmerizing. I especially like the trellis pattern and **Arabia** is my take on that. I got started on this pattern last spring in Havana, so I've actually been working on this pattern for almost a year now, which is atypical of me. But I'm glad I gave myself good time to develop it because I'm introducing some new techniques in my mosaic crochet adventures here and think it really paid off to let it mull in my head for a while. To get these smooth lines, I'm taking the slanted DC's I use in my *Mosaic Alphabet* and the *HOPE motif* to the next level. I hope you guys like it as much as I do and agree that this really opens up a lot of new possibilities!

Yarn & hook:

You can use any yarn you like for this pattern and a hook that suits your yarn. **Arabia** can be used to make both blanket and scarfs, as well as projects worked in the round like a cushion cover for example.

I'm making the original **Arabia** cushion myself with one of my favorite yarns: the wonderful, hand dyed **Tosh Merino Light**, from **Madeline Tosh**. That is fingering weight yarn and I used a 2.5 mm hook. I did 14 repeats across and 3 repeats high, this fits a cushion that is 55 cm / 21.5 inches wide and 38 cm / 15 inches long. I then added 3 DC rounds on the top and bottom of my piece, to get my cover to fit the cushion I had.

In case you'd like to do exactly the same, you'll need approximately:

200 g of color A = 2 skeins

100 g of color B = 1 skein

But you can really just use any yarn you like for your **Arabia** project. On page 38 of the pattern you'll find a table with the yarn stats per 1 repeat in various yarn types, for guidance on how much yarn you'll need for your project.

Abbreviations (US terms):

ST = stitch/stitches

SS = slip stitch

CH = chain stitch

SC = single crochet

DC = double crochet

FPDC = front post double crochet

2tog/3tog = 2 or 3 ST worked together

Gauge:

30 ST & 30 rows = 10 cm (4 inches)

Using fingering weight yarn and a 2.5 mm hook.

Sizes:

Arabia is a continuous pattern that's worked in repeats of 20 stitches and 32 rounds or rows, so you can really use this to make a project in any size you like.

Furthermore, you can use this pattern to make various projects, for example a cowl, a pillowcase, a purse or a bag, when working it in the round. But you can just as easily work it flat and make a scarf, a blanket, a rug, place mats or potholders.

To decide on how many repeats you need for your project, the best way is

to start by making a small swatch (just 1 repeat) of the pattern, using the yarn you have chosen. Then you can measure how large your repeat is and take it from there, adjusting this to the size you want your project to be.

If making a cushion, note that I like to make my crocheted covers a bit tighter than the actual size of the cushion you will use for the filling. This way the final result will be neater.

Colors

Arabia cushion made by Nynke Seldenrijk

You will need at least two colors and I recommend using contrasting colors.

To give some specific color tips, I would recommend using a solid color or a smooth color fade for both the main color (A) and the pattern color (B), blue here. That way the pattern will reach its full potential in my opinion.

General Instructions

This pattern consists of continuous mosaic pattern, which can be worked for any size you like, and comes with **written instructions for how to work it both flat (page 8) and in the round (page 21), as well as user-friendly charts for both versions.**

If **lefthanded**, you can either start with the written pattern and then go on to the chart, reading it from right to left. Or just work from the chart and work it from left to right, the end result will be the same because it's a symmetrical pattern.

IMPORTANT: When working my patterns, always assume the next stitch will go in the next available stitch unless told otherwise. For example, if it says: work 5 SC, then you work 1 SC into each of the next 5 ST. On the other hand, if you are supposed to skip a stitch or work many stitches into the same ST/CH SP, then that is always specified.

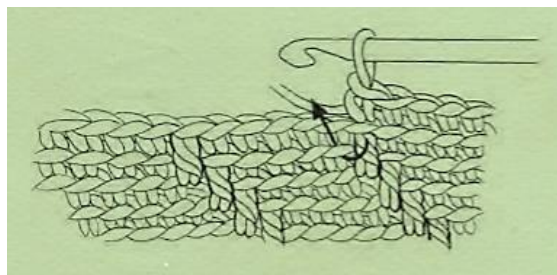

Mosaic Crochet Technique

When working the mosaic patterns, **each row is worked with only one color at a time.** I recommend always using contrasting colors for A and B, that way the patterns pop more.

The *Arabia* pattern is crocheted with the **mosaic crochet technique**:

All single crochet stitches are worked in the back loop of a stitch.

All double crochet stitches are worked in the front loop of a stitch in the row below the one you would normally crochet into. That is, in the corresponding stitch right below the stitch you would normally crochet into, one row down. For example, the double crochet stitches from Row 4 are worked into stitches in Row 2, DC stitches from Row 5 are worked into stitches in Row 3, etc. When working the double crochet stitches, you just yarn over and insert your hook from below in the front loop of the corresponding stitch below and then work a normal DC in that stitch. See the illustration on this page.

This way you get this unique mosaic pattern. Because the mosaic pattern is worked this way, always from the front side, the pattern only appears on front side of the afghan, and the back side is striped.

Note to take special care in working your DC's extra tightly when you are working 8 DC's or more all in a row. Otherwise those parts with many consequent DC's might get a bit bulgy.

Front post double crochet

To accentuate the vertical lines of the *Arabia* pattern, I work the DC's in the pattern color (B) as front post double crochet when possible (that is, whenever they are worked into other DC stitches). Then you work a front post DC around the corresponding DC of the same color, two rounds down, instead of using the normal mosaic technique. Always one round down like before, so the FPDC in round 4 are worked around DC's from round 2, and in round 6 you work them around the DC's from round 4, etc.

Take care to always give the FPDC's a bit of extra slack so that the squares don't ripple. If you crochet very tightly you could try and use FP

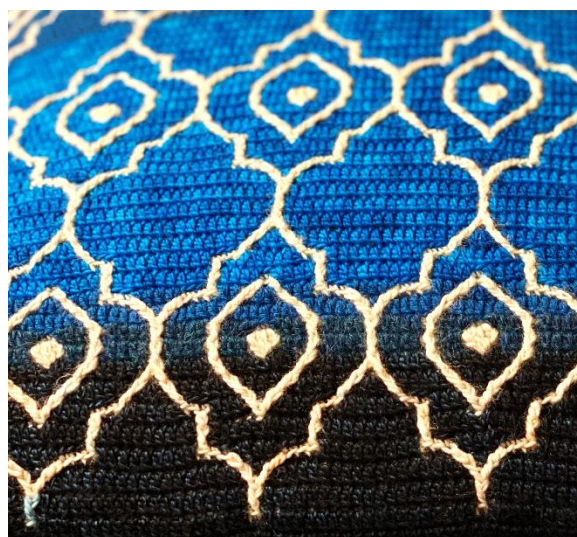

Note that I use the same symbol for DC's and FPDC's in the chart, so just remember that when possible (when working into another DC) you always work your DC's as a front post!

trebles or extended FPDC's instead of the FPDC's. I've tried both and I like the FPDC's best.

For visual aid, check out my YouTube channel, where I have a video showing you how to work these.

Slanted DC's & FPDC's

If left handed, then go right when I say left in the written instructions, and left when I say right. When working the slanted DC's and FPDC's.

In this pattern I'm trying out some new technique in mosaic crochet where you will sometimes work your DC's and FPDC's slanted. They are then worked either one or two ST to the left or right, and down one round as normally in mosaic crochet. This is done to get smoother vertical lines, not pixeled patterns like is normal in

mosaic crochet. This should be clear when looking at the charts. These slanted DC's are always worked into stitches of the same color as you have on your hook when working, and the symbol which I use for this in the chart is a simple line slanting one way /, and so it really shows you in which direction they should go. For the pattern color row/rounds, I also mark the stitch where they should land with blue in the chart. When a DC is slanted 1 ST to either side, I use one / and when a slanted DC is slanted 2 ST to either side, I use two //. I hope you will agree with me that this is a simple and clear way to add this technique to my charts. Further more, in the written instructions I specify this for each and every slanted DC. When working the **slanted FPDC's**, then they are worked around previous FPDC's, so it should be easy enough to see where they should land.

Instructions for Charts

If the box is empty, work a SC there. If there is an X in the box, work a DC or a front post DC there, according to instructions.

In the chart each line across represents one round/row and each box represents one stitch, except for the first and the last columns.

Bear in mind that although the pattern is colored into the chart, this is only to show you what the pattern should look like when you are done. Remember that **each row is worked with a single color**. So, ignore the color change in the chart while stitching and just focus on whether there is an X or not in each box.

The thick vertical lines at beginning and end of pattern are the ones that mark the repeats.

Chart Symbol Key

	= SC
X	= DC or FPDC
/	= DC or FPDC slanted 1 ST to the left
//	= DC or FPDC slanted 2 ST to the left
\	= DC or FPDC slanted 1 ST to the right
\\	= DC or FPDC slanted 2 ST to the right
Λ	= DC or FPDC 2tog
⋈	= DC or FPDC 3tog
↖	= border ST at beg of row (flat)
↷	= chain at beg of round
↖	= border ST at end of row (flat)
↷	= SS to join at end of round
	= main color A
	= pattern color B

You will find detailed instructions on how to work with my mosaic charts both in the rounds (page 28) and flat (page 16) in the according section of the pattern, after the written instruction for each version and before the chart.

Arabia worked flat

Arabia coaster made by Julia O'Callaghan

Chain a multiplication of 20 stitches with main color (A), and add 3 extra ST.

Next up are two foundation rounds, before we start working the pattern:

Foundation row 1. Color A: make 1 extra chain, work 1 SC into the second ST from hook, work 1 SC into each stitch and finish by breaking the yarn after that last SC and pulling the yarn once through that last ST.

Final stitch count varies depending on your project, but your final stitch count here, at the end of this round, is

the same as at the end of each round in this project.

Foundation row 2. Color B: work border stitch at the beginning of the

Note that once you've finished one whole repeat of the pattern, and start again with row 2 for the second and all consequent repeats, then the DC in row 2 will be worked as a FPDC.

row like this: pull the yarn through both loops of the first SC of the row, fasten it with 1 CH (note that you do not work into this first CH at the beginning of the next row, it's only made to fasten the yarn at the start), work 1 SC into both loops of the same first SC of the row. Work 1 SC into the back loop of each stitch of the row until there is only one ST left. Work border stitch at the end of row like this: work 1 SC into both loops of the last SC of the row, CH 1, break the yarn and pull it all the way through, tightly. Note that you will not work any stitches into this last chain at the end of next row, it is only made to better fasten the yarn before breaking it off.

From now on, the border stitches at the beginning and end of each row, are always worked this same way.

Now we start working the pattern according to the chart

Row 1. Color A, here and in all odd number rounds: work border stitch at the beginning of row, 1 DC, [9 DC, 1 SC, 10 DC] x repeats as needed. Work border stitch at the end of row.

Row 2. Color B, here and in all even number rounds: work border stitch at the beginning of row, 1 SC, [9 SC, 1 DC, 10 SC] x repeats as needed. Work border stitch at the end of row.

Row 3. Repeat row 1.

Row 4. Work border stitch at the beginning of row, 1 SC, [8 SC, 1 FPDC (slanted 1 to the left), 1 SC, 1 FPDC (slanted 1 ST to the right), 9 SC] x repeats as needed. Work border ST at end of row.

The front post DC's are worked around this DC from round 2:

The 2 FPDC's in place:

Row 5. Work border stitch at the beginning of row, 1 DC, [8 DC, skip the DC from last row and work 3 DC's into the next ST, skip the next DC and work 9 DC] x repeats as needed. Work border ST at end of row.

Row 6. Work border stitch at beginning of row, 1 SC, [6 SC, 1 FPDC (slanted 2 ST to the left), 5 SC, 1 FPDC (slanted 2 ST to the right), 7 SC] x repeats as needed. Work border ST at end of row.

Take care to skip the ST behind your FPDC's.

The 2 FPDC's in place:

Row 7. Work border stitch at beginning of row, 1 DC, [4 DC, 2 SC, skip 1 ST, 2 DC into the next ST, 3 DC, 2 DC into the next ST, skip 1 ST, 2 SC, 5 DC] x repeats as needed. Work border ST at end of row.

Row 8. Work border stitch at beginning of row, 1 SC, [4 SC, 1 DC, 9 SC, 1 DC, 5 SC] x repeats as needed. Work border ST at end of row.

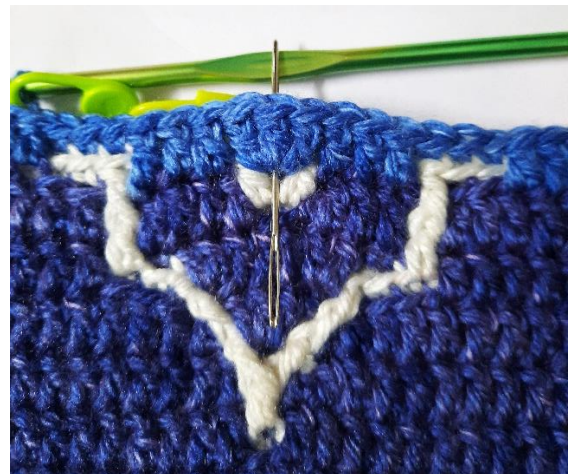

Row 9. Work border stitch at beginning of row, 1 DC, [4 DC, 1 SC, 4 DC, 1 SC, 4 DC, 1 SC, 5 DC] x repeats as needed. Work border ST at end of row.

Row 10. Work border stitch at the beginning of row, 1 SC, [4 SC, 1 FPDC, 3 SC, 1 DC (slanted 1 ST to the left) 1 SC, 1 DC (slanted 1 ST to the right, that is into the same stitch as the last slanted DC), 3 SC, 1 FPDC, 5 SC] x repeats as needed. Work border ST at end of row.

Row 11. Work border stitch at the beginning of row, 1 DC, [2 DC, 3 SC, 3 DC, skip 1 ST, 3 DC's all into the next ST, skip 1 ST, 3 DC, 3 SC, 3 DC] x repeats as needed. Work border ST at end of row.

Row 12. Work border stitch at the beginning of row, 1 SC, [1 DC (slanted 2 ST to the left), 5 SC, 1 FPDC (slanted 2 ST to the left), 5 SC, 1 FPDC (slanted 2 ST to the right), 5 SC, 1 DC (slanted 2 ST to the right), 1 SC] x repeats as needed. Work border ST at end of row.

Row 13. Work border stitch at the beginning of row, 1 DC, [skip 1 ST, 2 DC's into the next ST, 4 DC, skip 1 ST, 2 DC's into the next ST, 3 DC, 2 DC into the next ST, skip 1 ST, 4 DC, 2 DC's into the next ST, skip 1 ST, 1 DC] x repeats as needed. Work border ST at end of row.

Row 14. Work border stitch at the beginning of row, 1 FPDC (slanted 1 ST to the left, [4 SC, 1 FPDC (slanted 2 ST to the left), 9 SC, 1 FPDC (slanted 2 ST to the right), 4 SC, work FPDC 2tog (the first one slanted 1 ST to the right, the second one slanted 1 ST to the left)] x repeats as needed. In the last repeat of the row, you just work 1 FPDC (slanted 1 ST to the right) instead of the FPDC 2tog like the normal repeats. Work border ST at end of row.

Row 15. Work border stitch at the beginning of row, 1 SC, [4 DC, 1 SC] x repeats as needed. Work border ST at end of row.

Row 16. Work border stitch at the beginning of row, 1 FPDC, [4 SC, 1 FPDC, 2 SC, 1 DC (slanted 2 ST to the left), 3 SC, 1 DC (slanted 2 ST to the right), 2 SC, 1 FPDC, 4 SC, 1 FPDC] x repeats as needed. Work border ST at end of row.

Row 17. Work border stitch at the beginning of row, 1 SC, [4 DC, 1 SC, 1 DC, 2 DC's into next ST, skip 1 ST, 3 SC, skip 1 ST, 2 DC's into next ST, 1 DC, 1 SC, 4 DC, 1 SC] x repeats as needed. Work border ST at end of row.

Row 18. Work border stitch at the beginning of row, 1 FPDC, [4 SC, 1 FPDC, 4 SC, DC 3tog (first a slanted FPDC 2 ST to the right, 1 DC goes down 4 rows, into a ST from row 14, lastly a slanted FPDC 2 ST to the left), 4 SC, 1 FPDC, 4 SC, 1 FPDC] x repeats as needed. Work border ST at end of row.

Row 19. Work border stitch at the beginning of row, 1 SC, [3 DC, 2 DC's into next ST, skip 1 ST, 4 DC, DC 2tog (1st is slanted 1 ST to the right, into the same ST as the last of the 4 DC's, and the 2nd is slanted 1 ST to the left), 4 DC (1st one goes into the same ST as the 2nd DC 2tog), skip 1 ST, 2 DC's into next ST, 3 DC, 1 SC] x repeats as needed. Work border ST at end of row.

Row 20. Work border stitch at the beginning of row, 1 SC, [1 FPDC (slanted 1 ST to the right), 5 SC, 1 FPDC (slanted 2 ST to the right), 5 SC, 1 FPDC (slanted 2 ST to the left), 5 SC, 1 FPDC

(slanted 1 ST to the left), 1 SC] x repeats as needed. Work border ST at end of row.

Row 21. Work border stitch at the beginning of row, 2 DC's into the next ST (the first ST of the row), [skip 1 ST, 4 DC, 2 DC's into the next ST, skip 1 ST, 5 DC, skip 1 ST, 2 DC's into the next ST, 4 DC, skip 1 ST, 3 DC's into the next ST] x repeats as needed, finish the last repeat with only 2 DC's. Work border ST at end of row.

Row 22. Work border stitch at the beginning of row, 1 SC, [2 SC, 1 FPDC (slanted 2 ST to the right), 5 SC, 1 FPDC (slanted 2 ST to the right), 1 SC, 1 FPDC

(slanted 2 ST to the left), 5 SC, 1 FPDC (slanted 2 ST to the left), 3 SC] x repeats as needed. Work border ST at end of row.

Row 23. Work border stitch at the beginning of row, 1 DC, [1 DC, 2 DC's into next ST, skip 1 ST, 2 SC, 2 DC, 2 DC's into next ST, skip 1 ST, 1 DC, skip 1 ST, 2 DC's into next ST, 2 DC, 2 SC, skip 1 ST, 2 DC's into next ST, 2 DC] x repeats as needed. Work border ST at end of row.

Row 24. Work border stitch at the beginning of row, 1 SC, [4 SC, 1 DC, 4 SC, FPDC 2tog (1st slanted 1 ST to the right & 2nd slanted 1 ST to the left), 4 SC, 1 DC, 5 SC] x repeats as needed. Work border ST at end of row.

Row 25. Work border stitch at the beginning of row, 1 DC, [4 DC, 1 SC, 4 DC, DC 2tog (1st slanted 1 ST to the right, into the same ST as you worked your last DC & 2nd slanted 1 ST to the left), 4 DC (the first one goes into the same ST as the 2nd slanted DC), 1 SC, 5 DC] x repeats as needed. Work border ST at end of row.

Row 26. Work border stitch at the beginning of row, 1 SC, [4 SC, 1 FPDC, 9 SC, 1 FPDC, 5 SC] x repeats as needed. Work border ST at end of row.

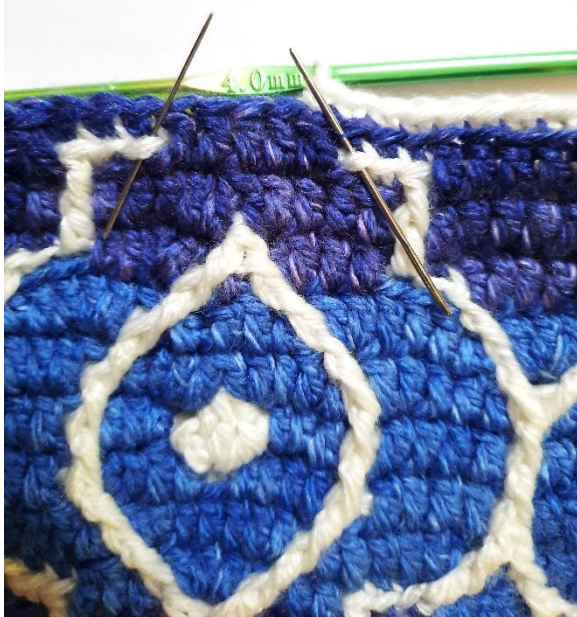

Row 27. Work border stitch at the beginning of row, 1 DC, [4 DC, 3 SC, 5 DC, 3 SC, 5 DC] x repeats as needed. Work border ST at end of row.

Row 28. Work border stitch at the beginning of row, 1 SC, [8 SC, 1 DC (slanted 2 ST to the right), 1 SC, 1 DC (slanted 2 ST to the left), 9 SC] x

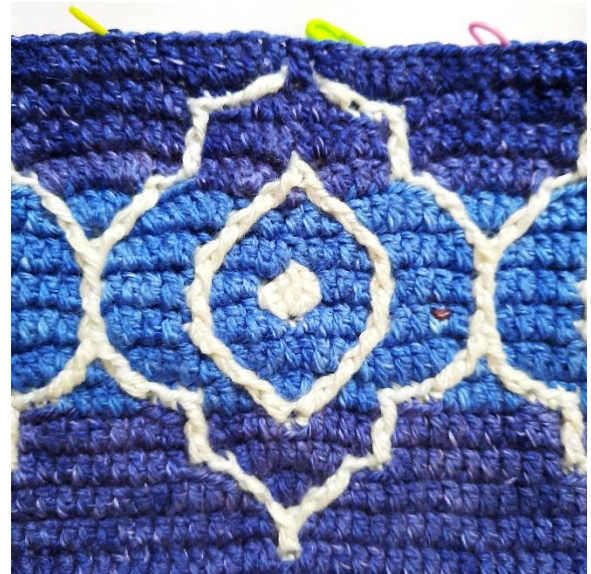

repeats as needed. Work border ST at end of row.

Placement of the two slanted DC's:

Row 29. Work border stitch at the beginning of row, 1 DC, [7 DC, 2 DC into the next ST, skip 1 ST, 1 DC, skip 1 ST, 2 dc into the next ST, 8 DC] x repeats as needed. Work border ST at end of row.

Row 30. Work border stitch at the beginning of row, 1 SC, [9 SC, FPDC 2tog (1st slanted 1 ST to the right 2nd slanted 1 ST to the left), 10 SC] x repeats as needed. Work border ST at end of row.

Row 31. Work border stitch at the beginning of row, 1 DC, [9 DC, 1 SC, 10 DC] x repeats as needed. Work border ST at end of row.

Row 32. Work border stitch at the beginning of row, 1 SC, [9 SC, 1 FPDC,

10 SC] x repeats as needed. Work border ST at end of row.

Repeat rows 1-32 as often as you like, to get the size you require. Finish by repeating row 1 to close the pattern off.

Arabia WIP blanket by Julia O'Callaghan, mixing the simplified and original versions.

Instructions for the ARABIA chart when working flat

In the first column from the right is a number showing which row it is. This column does not count as stitches.

In the second column from the right is the border stitch at the beginning of row. In this column you can also see which color to use in each row. Although the pattern is colored in the chart, remember that each row is worked with a single color.

border stitch at the beginning of row is always worked like this:

pull the yarn through both loops of the first SC of the row, fasten it with 1 CH (note that you do not work into this first CH at the beginning of the next row, it's only made to fasten the yarn at the start), work 1 SC into both loops of the same first SC of the row.

Next column from the right is an extra stitch you work before the repeat, so that the pattern is centered and symmetrical

Next part (20 columns) is the pattern, the part of the pattern that is repeated is defined by thicker lines.

Next is a second repeat of the pattern, just so you see how it should look when you continue. Note that

the last ST of that repeat is different in one row (row 22), so that the pattern is perfectly centered and symmetrical .

Arabia bags made by Jeni Ahern

In the first column from the left is a number showing which row it is. This column does not count as stitches.

In the second column from the left is the **border stitch at the end of row**, which is always worked like this:

work 1 SC into both loops of the last SC of the row, CH 1, break the yarn and pull it all the way through, tightly. Note that you will not work any stitches into this last chain at the end of next row, it is only made to better fasten the yarn before breaking it off.

Chart Symbol Key:

	= SC
X	= DC or FPDC
/	= DC or FPDC slanted 1 ST to the left
//	= DC or FPDC slanted 2 ST to the left
\	= DC or FPDC slanted 1 ST to the right
\\	= DC or FPDC slanted 2 ST to the right
Λ	= DC or FPDC 2tog
⋈	= DC or FPDC 3tog
↖	= border ST at beg of row
↗	= border ST at end of row
	= main color A
	= pattern color B

Note that I use the same symbol for DC's and FPDC's in the chart, so just remember that when possible (when working into another DC) you always work your DC's as a front post!

ORIGINAL ARABIA CHART – when worked flat

This is the original version of Arabia, exactly like the written instructions.

[illegible]

Repeat this part of the pattern (20 ST)

SIMPLIFIED ARABIA CHART – when worked flat

[illegible]

This is a simplified version of my Arabia pattern, with no detail filling in the middle. I include this simple version only as a chart, you can follow the written instructions for guidance and then just skip the more complicated middle bits if you will, but I hope the chart is clear as well. Note to take extra care to work your main color DC's quite tightly if working this simple version, since there are so many of them in a row always. If you don't, they might get a bit bulgy.

Repeat this part of the pattern (20 ST)

If you would like to do the DETAILED version of Arabia, where all the trellis patterns have the detailed filling pattern in the middle, I include this version only as a chart. Then you start by working rows 1-16 according to the written instruction and the ORIGINAL ARABIA chart, then work rows 17-48 according to this chart here and repeat that part as many times as you want. Then you go back to the written instructions and work rows 17-32 of the ORIGINAL chart to finish the pattern.

Arabia worked in the round

Arabia purses made by Mariella Ponti

Chain a multiplication of 20 stitches with main color (A).

Next up are two foundation rounds, before we start working the pattern:

Foundation round 1. Color A: make 1 extra chain, work 1 SC into the second ST from hook, work 1 SC into each stitch and finish by joining the piece into a circle with 1 SS into the back loop of the first SC of this round, using **color B**.

Once joined, take extra care that your chain isn't twisted!

Final stitch count varies depending on your project, but your final stitch count here, at the end of this round, is the same as at the end of each round in this project.

Foundation round 2. Color B: chain 1, work 1 SC into the same first SC of the round, where you joined into with the SS at the end of last round. 1 SC into

each stitch, until you get to the last stitch (the slip stitch). Skip that ST and join into the first CH of the round, with a slip stitch and color A.

Again here, take care that your piece isn't twisted, there's still wiggle room after this round to cheat a bit and just twist it so that it's correct.

Now we start working the pattern according to the chart.

Round 1. Color A, here and in all odd number rounds: chain 1, [10 DC, 1 SC, 9 DC] x repeats as needed. When you get to the last ST (the slip stitch), skip that stitch and join with a SS and color B into the first chain of this current round.

Round 2. Color B, here and in all even number rounds: chain 1, [10 SC, 1 DC, 9 SC] x repeats as needed. Skip the last stitch of the round (the slip stitch) and join with a SS and color A into the first chain of this current round. **End each round this same way from here on out, always joining at the end of round, this same way, with the upcoming color.**

Note that once you've finished one whole repeat of the pattern, and start again with round 2 for the second and all consequent repeats, then the DC in round 2 will be worked as a FPDC.

Round 3. Repeat round 1.

Round 4. Chain 1, [9 SC, 1 FPDC (slanted 1 to the left), 1 SC, 1 FPDC (slanted 1 ST to the right), 8 SC] x repeats as needed. End as before.

around this DC from round 2:

The 2 FPDC's in place:

Round 5. Chain 1, [9 DC, skip the DC from last round and work 3 DC's into the next ST, skip the next DC and work 8 DC] x repeats as needed. End as before.

Round 6. Chain 1, [7 SC, 1 FPDC (slanted 2 ST to the left), 5 SC, 1 FPDC (slanted 2 ST to the right), 6 SC] x repeats as needed. End as before.

Take care to skip the ST behind your FPDC's.

The 2 FPDC's in place:

Round 7. Chain 1, [5 DC, 2 SC, skip 1 ST, 2 DC into the next ST, 3 DC, 2 DC into the next ST, skip 1 ST, 2 SC, 4 DC] x repeats as needed. End as before.

Round 8. Chain 1, [5 SC, 1 DC, 9 SC, 1 DC, 4 SC] x repeats as needed. End as before.

Round 9. Chain 1, [5 DC, 1 SC, 4 DC, 1 SC, 4 DC, 1 SC, 4 DC] x repeats as needed. End as before.

Round 10. Chain 1, [5 SC, 1 FPDC, 3 SC, 1 DC (slanted 1 ST to the left) 1 SC, 1 DC (slanted 1 ST to the right, that is into the same stitch as the last slanted DC), 3 SC, 1 FPDC, 4 SC] x repeats as needed. End as before.

Round 11. Chain 1, [3 DC, 3 SC, 3 DC, skip 1 ST, 3 DC's all into the next ST,

skip 1 ST, 3 DC, 3 SC, 2 DC] x repeats as needed. End as before.

Round 12. Chain 1, [1 SC, 1 DC (slanted 2 ST to the left), 5 SC, 1 FPDC (slanted 2 ST to the left), 5 SC, 1 FPDC (slanted 2 ST to the right), 5 SC, 1 DC (slanted 2 ST to the right)] x repeats as needed. End as before.

Round 13. Chain 1, [1 DC, skip 1 ST, 2 DC's into the next ST, 4 DC, skip 1 ST, 2 DC's into the next ST, 3 DC, 2 DC into the next ST, skip 1 ST, 4 DC, 2 DC's into the next ST, skip 1 ST] x repeats as needed. End as before.

Round 14. Chain 1, [work FPDC 2tog (the first one slanted 1 ST to the right, the second one slanted 1 ST to the left), 4 SC, 1 FPDC (slanted 2 ST to the left), 9 SC, 1 FPDC (slanted 2 ST to the right), 4 SC] x repeats as needed. End as before.

Round 15. Chain 1, [1 SC, 4 DC] x repeats as needed. End as before.

Round 16. Chain 1, [1 FPDC, 4 SC, 1 FPDC, 2 SC, 1 DC (slanted 2 ST to the left), 3 SC, 1 DC (slanted 2 ST to the right), 2 SC, 1 FPDC, 4 SC] x repeats as needed. End as before.

Round 17. Chain 1, [1 SC, 4 DC, 1 SC, 1 DC, 2 DC's into next ST, skip 1 ST, 3 SC, skip 1 ST, 2 DC's into next ST, 1 DC, 1 SC, 4 DC] x repeats as needed. End as before.

Round 18. Chain 1, [1 FPDC, 4 SC, 1 FPDC, 4 SC, DC 3tog (first a slanted FPDC 2 ST to the right, 1 DC goes down 4 rounds, into a ST from round 14,

lastly a slanted FPDC 2 ST to the left), 4 SC, 1 FPDC, 4 SC] x repeats as needed. End as before.

Round 19. Chain 1, [1 SC, 3 DC, 2 DC's into next ST, skip 1 ST, 4 DC, DC 2tog (1st is slanted 1 ST to the right, into the same ST as the last of the 4 DC's, and the 2nd is slanted 1 ST to the left), 4 DC (1st one goes into the same ST as the 2nd DC 2tog), skip 1 ST, 2 DC's into next ST, 3 DC] x repeats as needed. End as before.

Round 20. Chain 1, [1 SC, 1 FPDC (slanted 1 ST to the right), 5 SC, 1 FPDC (slanted 2 ST to the right), 5 SC, 1 FPDC (slanted 2 ST to the left), 5 SC, 1 FPDC (slanted 1 ST to the left)] x repeats as needed. End as before.

Round 21. Chain 1, 2 DC's into the next ST (the first ST of the round), [skip 1 ST, 4 DC, 2 DC's into the next ST, skip 1 ST, 5 DC, skip 1 ST, 2 DC's into the next ST, 4 DC, skip 1 ST, 3 DC's into the next ST] x repeats as needed, finish the last repeat with only 1 DC. End as before.

Round 22. Chain 1, [3 SC, 1 FPDC (slanted 2 ST to the right), 5 SC, 1 FPDC (slanted 2 ST to the right), 1 SC, 1 FPDC (slanted 2 ST to the left), 5 SC, 1 FPDC (slanted 2 ST to the left), 2 SC] x repeats as needed. End as before.

Round 23. Chain 1, [2 DC, 2 DC's into next ST, skip 1 ST, 2 SC, 2 DC, 2 DC's into next ST, skip 1 ST, 1 DC, skip 1 ST, 2 DC's into next ST, 2 DC, 2 SC, skip 1 ST, 2 DC's into next ST, 1 DC] x repeats as needed. End as before.

Round 24. Chain 1, [5 SC, 1 DC, 4 SC, FPDC 2tog (1st slanted 1 ST to the right & 2nd slanted 1 ST to the left), 4 SC, 1 DC, 4 SC] x repeats as needed. End as before.

Round 25. Chain 1, [5 DC, 1 SC, 4 DC, DC 2tog (1st slanted 1 ST to the right, into the same ST as you worked your last DC & 2nd slanted 1 ST to the left), 4 DC (the first one goes into the same ST as the 2nd slanted DC), 1 SC, 4 DC] x repeats as needed. End as before.

Round 26. Chain 1, [5 SC, 1 FPDC, 9 SC, 1 FPDC, 4 SC] x repeats as needed. End as before.

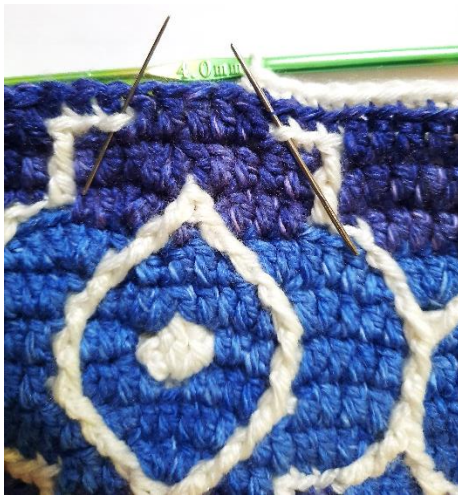

Round 27. Chain 1, [5 DC, 3 SC, 5 DC, 3 SC, 4 DC] x repeats as needed. End as before.

Round 28. Chain 1, [9 SC, 1 DC (slanted 2 ST to the right), 1 SC, 1 DC (slanted 2 ST to the left), 8 SC] x repeats as needed. End as before.

Placement of the two slanted DC's:

Round 29. Chain 1, [8 DC, 2 DC into the next ST, skip 1 ST, 1 DC, skip 1 ST, 2 dc into the next ST, 7 DC] x repeats as needed. End as before.

Round 30. Chain 1, [10 SC, FPDC 2tog (1st slanted 1 ST to the right 2nd slanted 1 ST to the left), 9 SC] x repeats as needed. End as before.

Round 31. Chain 1, [10 DC, 1 SC, 9 DC] x repeats as needed. End as before.

Round 32. Chain 1, [10 SC, 1 FPDC, 9 SC] x repeats as needed. End as before.

Continue working the same way, repeating rounds 1-32 as many times as you like. Finish by working round 1 after your last repeat, to close the pattern off.

Arabia cushion made by Jui Tawade

Instructions for Arabia chart when worked in the round

Arabia cushion made by Sue Collings using the simplified version.

In the first column from the right is a number showing which round it is. This column does not count as stitches.

In the second column from the right is the chain stitch at the beginning of round. In this column you can also see which color to use in each round. Although the pattern is colored in the chart, remember that each row is worked with a single color.

Next part is the pattern repeat, the part of the pattern that is repeated is defined by thicker lines.

In the first column from the left is a number showing which round it is. This column does not count as stitches.

In the second column from the left is the slip stitch at the end of round, the one you use to join at the end of each round. You can also see which color to use for each row in this column.

Chart Symbol Key:

	= SC
X	= DC or FPDC
/	= DC or FPDC slanted 1 ST to the left
//	= DC or FPDC slanted 2 ST to the left
\	= DC or FPDC slanted 1 ST to the right
//	= DC or FPDC slanted 2 ST to the right
Λ	= DC or FPDC 2tog
⌘	= DC or FPDC 3tog
↖	= chain at beg of round
↗	= SS to join at end of round
	= main color A
	= pattern color B

Note that I use the same symbol for DC's and FPDC's in the chart, so just remember that when possible (when working into another DC) you always work your DC's as a front post!

This is a simple version of my Arabia pattern, with no filling. I include this simple version only as a chart, you can follow the written instructions for guidance and then just skip the more complicated middle bits if you will, but I hope the chart is clear as well. Note to take extra care to work your main color DC's quite tightly if working this simple version, since there are so many of them in a row always. If you don't do that, they might get a bit bulgy.

If you would like to do the DETAILED version of Arabia, where all the trellis patterns have the detailed filling pattern in the middle, I include this version only as a chart. Then you start by working rounds 1-16 according to the written instruction and the ORIGINAL ARABIA chart, then work rounds 17-48 according to this chart here and repeat that part as many times as you want. Then you go back to the written instructions and work rounds 17-32 of the ORIGINAL chart to finish the pattern.

Finishing

The finishing depends on your project.

If making a cowl, just weave in your ends and block the piece.

If making a cushion cover, weave in your ends and block the piece. Then close off the top part of the piece with slip stitches, from the right side. Insert your cushion and then do the same on the bottom side.

Take care that your piece is lined up correctly, so that both sides match and keeping the join straight and on the side. See how I do it on the pic

here above. You can also check out my Youtube video on how to join crochet motifs into a blanket, to see how I do this. In the following photo you can see what the join should look like.

If making a rectangular wrap or shawl, placemats or a blanket, you can choose to finish your project either with the twisted fringe or the double border.

Twisted fringe

If working the *Arabia* pattern flat, you can just leave your tails at the beginning and end of each row extra long (15-20 cm) and finish by making a twisted fringe with them. This can work for both a blanket and is obviously just perfect for a scarf!

If you decide on the twisted fringe, please check out my video tutorial on how to do this on my Youtube Channel.

The double border

Another option for a blanket or placemats would be finishing with my double border.

Blanket made by Alison Miles.

Now, if working the *Arabia* pattern flat, we are left with a lot of tails! Endless ends if you will! You can opt for working the double border according to this pattern to hide all

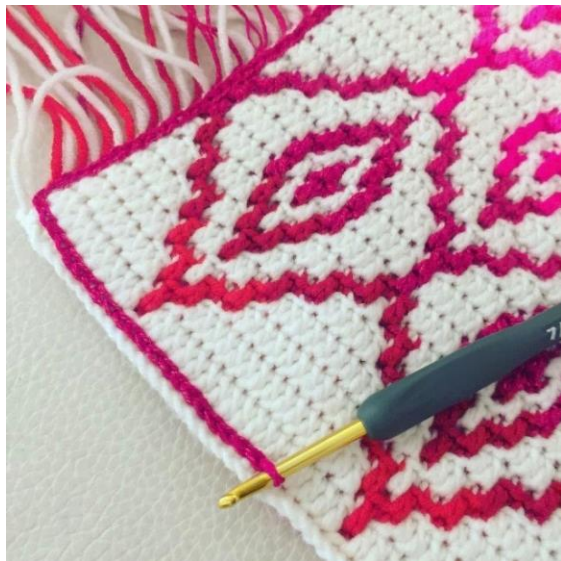

those ends. Note that the following pics here are from my *Casablanca Afghan*, since I made a *Arabia* cushion cover myself. But my plain double border can really be used for any mosaic project.

Now, the border is made double, so that the ends are hidden inside it. I also like how it gives the blanket a nice finishing touch. Here I used a **plain double border**, working it with only one color and 5 rounds of double crochet, so that it would be quicker. Note that you can easily make the plain border wider or smaller all according to your liking, by working more or fewer rounds, the pics here show a 3 round border.

The trick to the double border is to first crochet one round with slip stitches, all around the border of the blanket, and the second rounds (in the front and the back) are worked into the slip stitches. The back side into the back side of the slip stitches and the front side into the front side. Then you work both sides normally from each side. It's a bit difficult (and honestly quite tedious!) to work into the back side of the slip stitches, so I recommend that you start by working the first round of the back side first,

before working the front side. If you do it the other way around, the slip stitches get tighter and it makes it even more difficult to work into the back side. After this first round, the border is a breeze, so just power through!

Before starting the border, you should now take all your loose ends at beginning of row and tie them two and two together, the ones next to each other, with a double knot. This way you secure them better. There's no need to do this with the ends at the end of row, since we end each row with an extra chain to secure the tail. Now trim the ends a bit, so they are approximately 5 cm long.

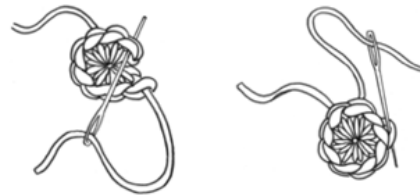

Foundation round: Work with **same size of hook as you worked your blanket** and color B (you can work this

round in any color and I recommend doing it with a bright or light color, so you can better see the stitches from the back side). Start somewhere at the bottom of the border of the blanket. Work from the front side of your blanket and crochet slip stitches all around the border.

Take care not to work your slip stitches too tightly, so that it won't be as difficult to work into the back of them. Work 1 SS in each stitch on the top and the bottom of the blanket and 1 SS into each row on the sides, **into the SC border stitches**. And note that you don't add any extra ST in the corners.

When there is only 1 ST left, fasten off the yarn and sew the last stitch in like this, using the invisible join:

Now, work all the border with a single color of your choosing and a **hook that is 0.5 mm smaller** than the one you used for your blanket. For the a big blanket, bedspread for example, I recommend 5-6 rounds of DC's and

for a baby blanket 3-4 rounds, this also depends on which weight of yarn you are using. You can make the plain border as thin or wide as you like, just work the same number of rounds for the front side and the backside.

Back side of the border

Use a hook that's 0,5 mm smaller for you border than what you used for your blanket.

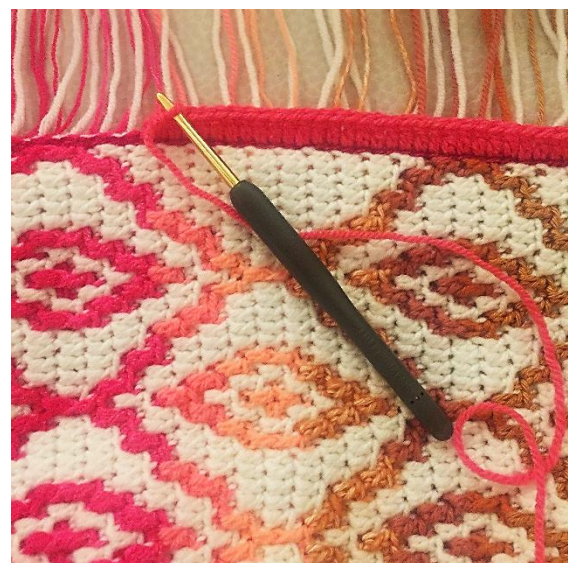

Rnd. 1. Work from the backside of the blanket and start somewhere at the bottom part of the border: work into the back side of the slip stitches from the foundation round (note that this round is no fun at all! But it will all be worth it to get this nice double border), fasten the yarn and work 3 CH, work 1 DC into each of the slip stitches, until you get to a corner, then

work 2 chains over the corner and continue working 1 DC into each ST until you get to the next corner, work all the corners the same way as the first one. Join with a slip stitch into the third CH made at the beginning of the row.

Rnds. 2.- (3) 5. Work the same as the the first round, working into both loops of each stitch. In this round and from now on you work your corners into the chains spaces, that is 2 DC + 2 CH +2 DC into each corner chain space.

In the last round of the border, work 5 DC's into the corner chain space, instead of the 2 DC +2 CH + 2 DC, just to give it a neater finish!

Front side of the border

Rnd. 1. Work from the front of the blanket and **stitch into the back loop** of each stitch. Start somewhere at the bottom part of the border: fasten the yarn and work 3 CH, work 1 DC into each of the slip stitches, until you get to a corner, then work 2 chains over the corner like for the back side. Continue working 1 DC into each ST until you get to the next corner, work over all the corners the same way as the first one. Join with a slip stitch into the third CH made at the beginning of the round.

Rnds. 2.- (3) 5. Repeat the second round, working into both loops of each stitch. In this round and from now on you work your corners into the chains spaces like you would normally, that is 2 DC + 2 CH + 2 DC into each corner chain space.

In the last round of the border (round 3 for the baby version and round 5 for the big version), work 5 DC's into the corner chain space, instead of the 2 DC + 2 CH + 2 DC, just to give it a neater finish. Break of the yarn and weave in the ends.

Joining the two sides of the border

Work with color A from the front side of the blanket. Start close to a corner so it's easy to count the stitches to the corner and adjust the two sides so that they are parallel. Lay the two sides together and crochet them together with slip stitches, working only into the back loop of the front side border and into the front loop of the backside border.

Join the two sides of the border like this all around. Break of the yarn and weave in the end.

Yarn stats for ARABIA

Yarn type, weight, manufacturer	Weight category	Hook size (mm)	Amount used each colour (weight) 1 complete repeat	Amount used each colour in metres 1 complete repeat	Finished dimensions 1 complete repeat
Anchor Freccia no. 6 (thread)		1.6	A 4.5 g B 2.5 g	A 15 m B 9 m	
Tosh Merino Light 100% merino wool 100 g = 384 m		2.5	A 4.5 g B 2.5 g	A 17 m B 10 m	6.5 x 11 cm 2.5 x 4 inches
Drops Safran 4ply cotton 50g = 160m		2.5	A 10 g B 4.5 g	A 34 m B 15 m	8.5 x 14.5 cm 3 x 5.5 inches
Scheepjes Lara 100% cotton 50 g = 125 m		2	A 12 g B 7 g	A 30 m B 17.5 m	7.5 x 12.5 cm 3 x 5 inches
Stylecraft SDK 100 % acrylic 100 g = 295 m		3.5	A 9.5 g B 5.5 g	A 28.5 m B 17 m	12 x 18 4.5 x 7 inches
Stylecraft SDK 100 % acrylic 100 g = 295m		4	A 15 g B 8 g	A 43 m B 23.5 m	13 x 20 cm 5 x 8 inches
100% WOOL 100 g = 160 m		4.5	A 19 g B 15 g	A 31 m B 24.5 m	14.5 x 23 cm 5.5 x 9 inches
Léttlopi 100 % wool 50 g = 100 m		5	A 19 g B 14 g	A 38 m B 28 m	15 x 24 cm 6 x 9.5 inches

In this table you can see how much yarn you will need approximately for 1 complete repeat of the pattern (20 ST x 32 rows/rounds), in various yarn types. Please bear in mind that yarn stats can vary according to your gauge, so this table should be used for guidance only!
