Do not join. Continue on to Slip Stitch Edging.

Slip Stitch Edging

Note: Adding the slip stitch edging will help to keep your strap from stretching out.

Rnd 1: Continuing on from the Edging, slip stitch in each st around the perimeter of the strap. Adjust your hook size as needed to keep the tension even. Stitch count isn't crucial. Use Special Join Technique shown on last page to finish off.

Fasten off. Weave in ends. Continue on Attaching the Strap.

Finished size of the strap is approximately 2" W x 29"L.

Attaching the Strap

- If you're using the metal slides, slide one end of the strap through 1 slide. Repeat for the opposite end.
- Sew each end of the strap to the upper portion of the bag. I sewed my strap onto the bag by stitching both above and below the slide.

Fasten off. Weave in ends.

Chart for Bobble Section

- Work & read the chart from right to left, bottom to top.
- Each square represents 1 stitch.
- See key at the bottom of the chart.
- All bobble rounds are worked on the RS. All sc only rounds are worked on the WS.
- The stitch pattern repeat is 10 sts as noted by the dark grey vertical lines on the chart.

Seaming the Bottom of the Bag

Step 1: Turn the bag inside out, lay it flat in front of you, and line up the seam on one of the sides. *(photo right)*

Step 2: Using a yarn needle and length of MC approximately 3 times the width of the bag, whipstitch the bottom of the bag closed making sure to work into every stitch. Weave in ends. *(photo left)*

Step 3: Keep your bag inside out and position it so that one corner of the seam becomes the tip of the triangle *(shown in the photo to the right)*. Note that the seam is centered vertically in the triangle.

Step 4: Use a measuring tape and find the points on the triangle where it measures 2.5" across. Mark both the right and left side with a stitch marker.

Step 5: Use a yarn needle and 10" piece of yarn and sew from one stitch marker to the next, working thru both layers of the bag. Weave in ends.

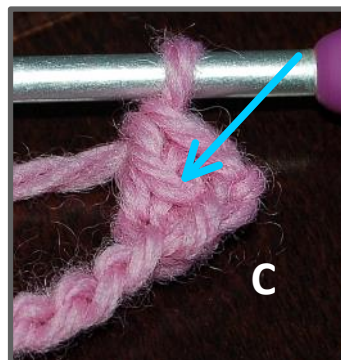

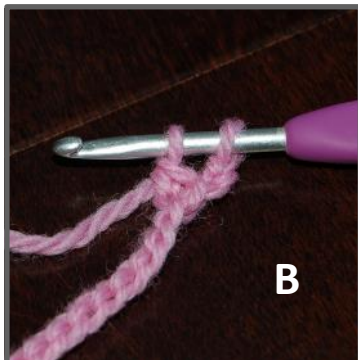

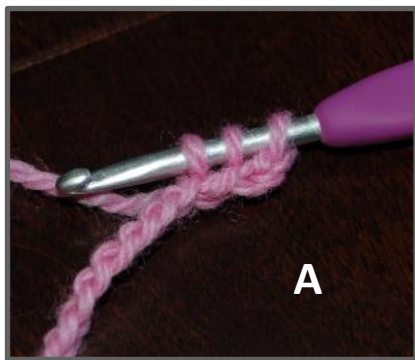

Seaming the Bottom of the Bag Continued

Step 6: Turn your bag right side out. The photo below left shows what the inside of your bag will look like. The photo below right shows what the bottom of your bag will look like. *Bag shown in pic on the left is the Strawberry Lemonade Tote, but the technique is the same.*

Linked DC Tutorial

Step 1: Ch any amount + 2, insert hook in 2nd ch from hook, pull up a loop, insert hook in 3rd ch from hook, pull up a loop, yo, pull thru 2 loops, yo, pull thru remaining loops on hook. See Photos A, B & C.

Step 2: See blue arrow on Photo C; this is the horizontal bar of the dc just completed. Insert hook into horizontal bar of previous dc, pull up a loop, insert hook into next ch, pull up a loop, complete dc as usual. See Photos D, E, F & G.

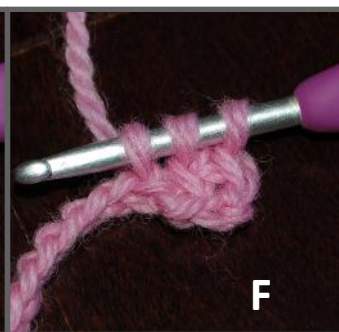

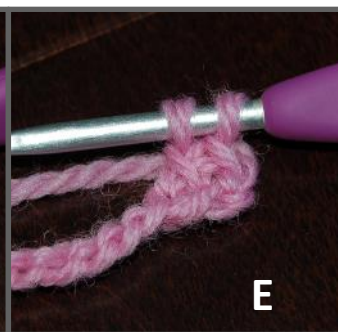

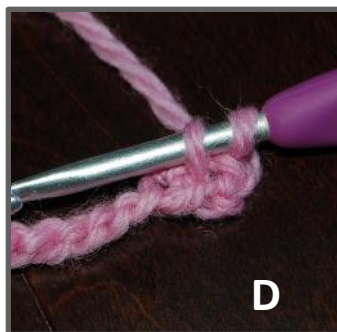

Photo to the right shows what your work will look like after working a few linked dc.

Beginning a new row: When you begin a new row, ch 2, then begin the first stitch by inserting your hook into the 2nd ch from your hook, yo, pull up a loop, insert your hook into the next ch or st, yo, pull up a loop, complete dc as usual.

Special Join Technique: pull up on the loop on your hook, remove your hook, insert your hook from top to bottom under the first sl st of the round, put the loop back on your hook and pull slightly to tighten it, then pull the loop thru the stitch.

Photo Left: Pull up on the loop on your hook, remove your hook, insert your hook from top to bottom under the first sl st of the round.

Photo Right: Put the loop back on your hook and pull slightly on the working yarn to tighten the loop back up.

Photo Left: Pull the loop thru the stitch.
