

# How to knit/crochet with 3 times thicker yarn out of 1 ball?

Some projects require thicker yarn. Any yarn/thread can be made 3 times thicker. This is particularly useful when only 1 ball of yarn is available.)))

**“FlowerBall”  
Decoration Light**

**“Sea Shell”  
Crochet Basket**

**“Nautilus Shell”  
Crochet Basket**

**“Transformer” Hat**

Crochet Rug**

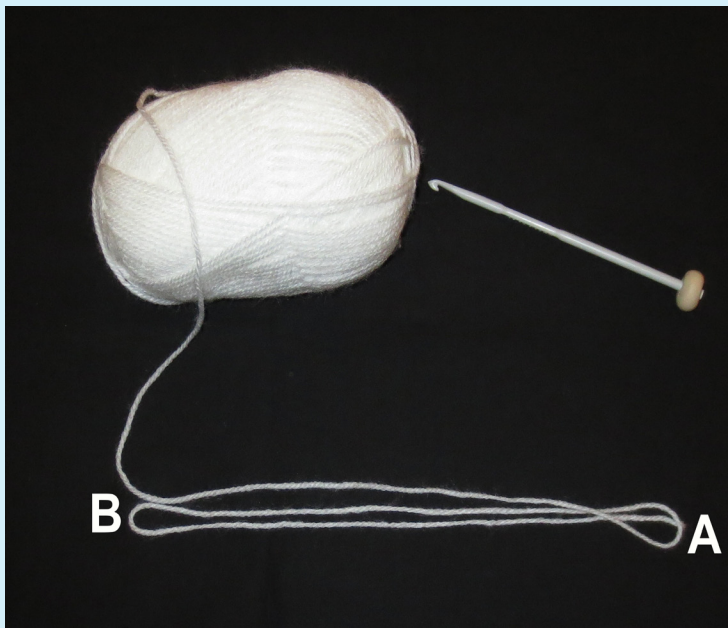

#### Step-A

In order to make any yarn 3 times thicker, when crocheting / knitting from 1 ball/bobbin,...

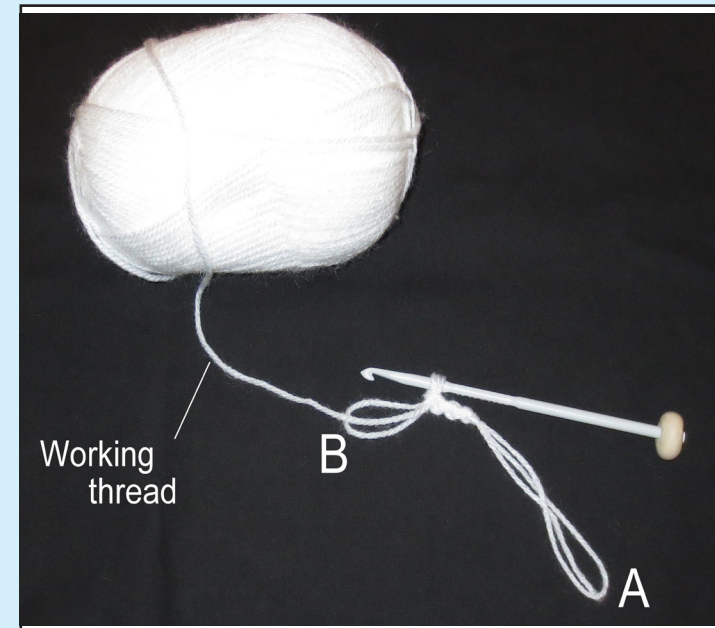

#### Step-B

...place the yarn as shown on the table. (distance from loop A to loop B is approximately 50cm/20")

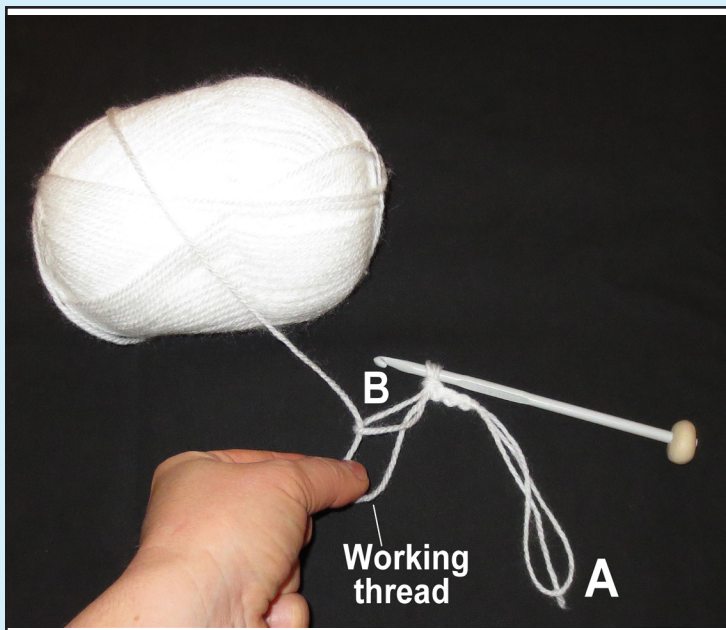

#### Step-C

Put 3 threads together and start crocheting as with ordinary yarn.

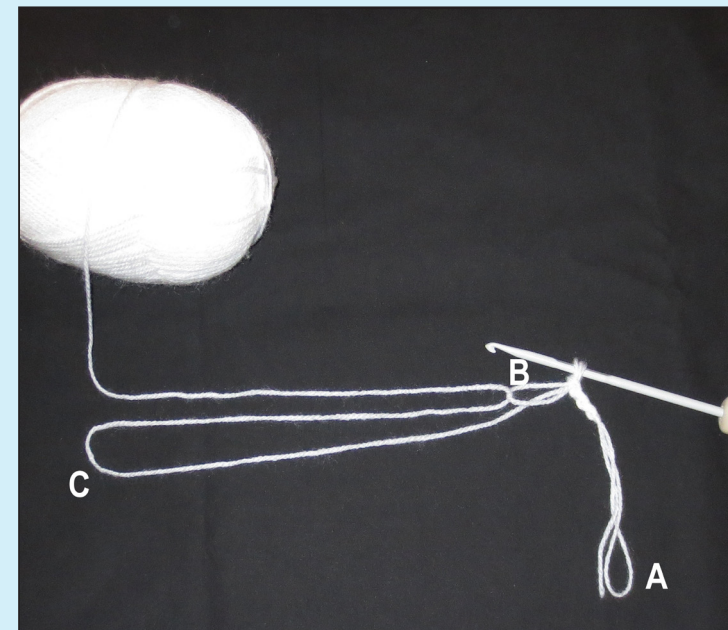

#### Step-D

When you have approached the loop B, unravel some yarn from the ball,

#### Step-E

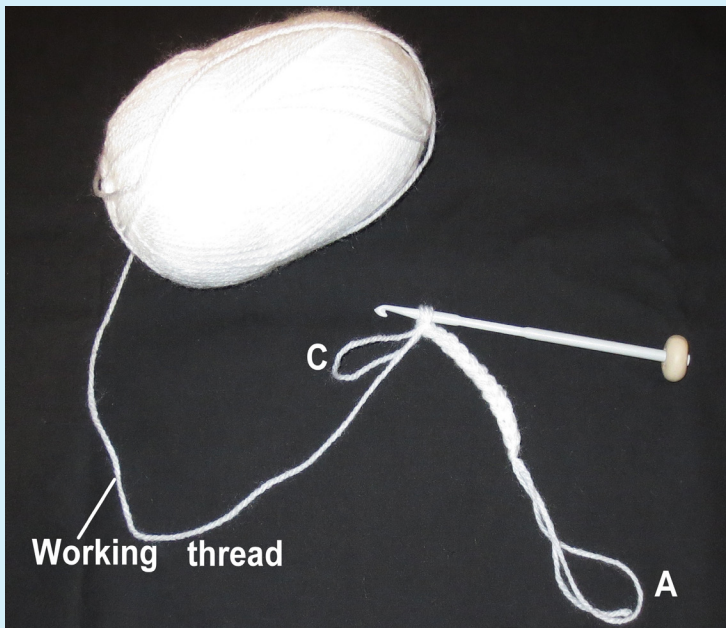

...insert the working thread into the loop B, and pull it out,...

#### Step-F

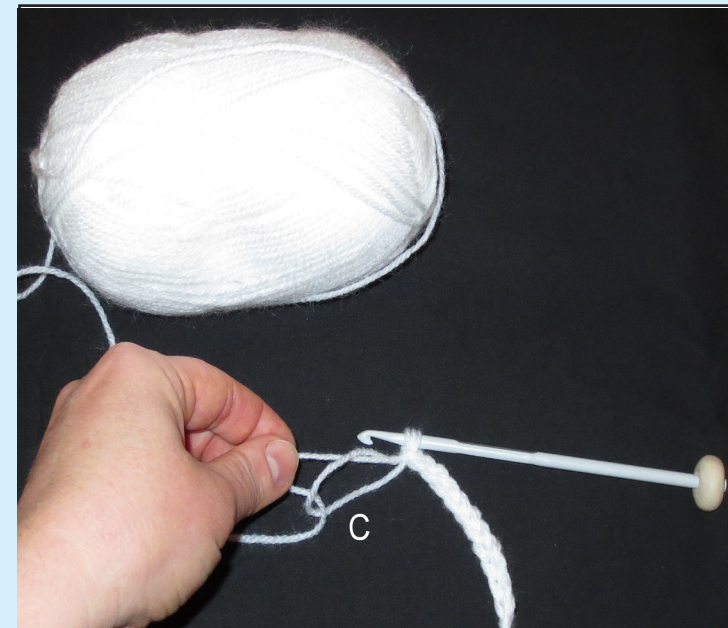

making the length between loop B and loop C approximately 50cm/20".

Continue to crochet as with ordinary yarn.

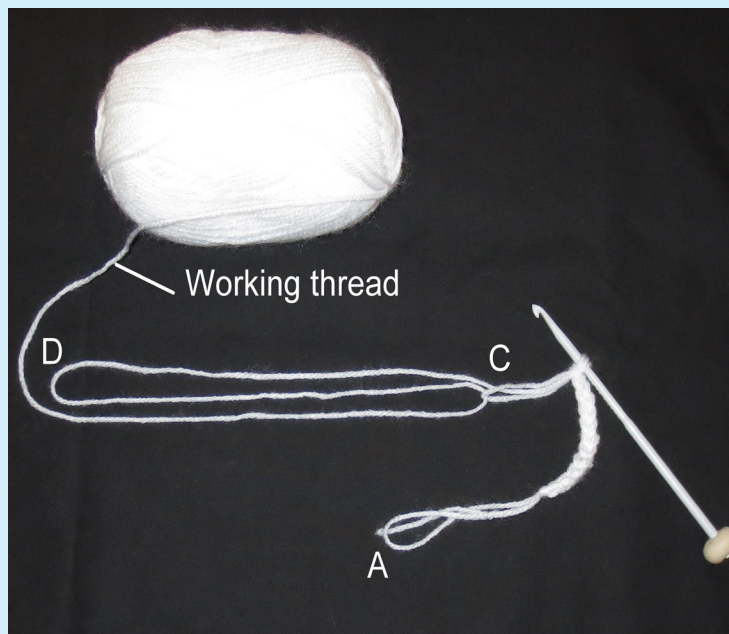

#### Step-G

Loop B appears inside your material. When reaching the loop C, again unravel some yarn from the ball,...

#### Step-H

...then insert the working yarn into the loop C, and pull it out

#### Step-I

Continue to crochet until you reach the loop D, and then repeat again.

#### Step-J

To crochet in comfort (not laying yarn on the table) just insert the hook into the loop, grab the working yarn,...

#### Step-K

...and pull it out with another hand as long as you can (approx 1-2 m/ yards)

#### Step-L

Do not make the triple yarn too short or too long, in order to save your time and avoid knots.

The end)))
