

Finding Your Way Cowl

By Lilinette Crochet

The *Finding Your Way Cowl* is inspired by labyrinth gardens.

As a child, I loved to get lost in those gardens, trying to find my way to the center. Usually, a lookout tower nestled in there made it all worth it.

Breathtaking views over the hedges added another chance to puzzle my route back out. But although this cowl has a completely symmetrical pattern, it does not have a lookout tower at its center. What's more, depending on how you turn it, the center seams to move and a completely different pattern emerges.

The cowl is snug around the neck for the colder months to come, but not too tight. You can wear it both tucked into a coat or as an accessory to show off on top of your clothes. Sport weight yarn makes it lightweight and comfortable to wear and the contrasting colors make the pattern pop.

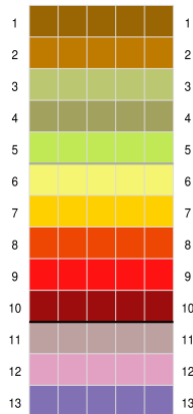

Yarn

Phildar Partner 3.5 (25% wool, 25% acrylic, 50% polyamide; 164 yds ([150 m]/55 g): Bordeaux 316 (MC), 2 skeins – Note that the original only used 5 grams (approx. 17 yards) of the second skein

Thirteen contrasting colors of sport weight (12 wpi) yarn, a total of 164 yds ([150 m]/55 g) (C1-C13), 14 yds per color ([12.5 m]/5 g) each.

Leftovers from other projects are great for these contrasting colors.

Here are the colors that we used:

Hook

4 mm / F / 8 crochet hook

Or size needed to obtain gauge

Size

24" [61 cm] circumference and 11" [28 cm] high.

Notions

Tapestry needle, stitch markers

Gauge

17 sts and 15 rows = 4" [10cm] before blocking

16 sts and 15 rows = 4" [10cm] after blocking

Pattern Notes

- This cowl is worked in the round with RS always facing.
 - Ch1 at beg of rnd does not count as st. Tighten your ch1 as much as possible to create a nearly invisible join.
 - All scs are worked in BLO of st
 - All ss are worked in BLO of 1st st of rnd; pm in this 1st st if you find it hard to remember which st is the first.
 - Always start first st of rnd in same st as ss of prev rnd.
 - When pattern indicates (number) sc, work that many sc in the following same amount of sts. The pattern will indicate it specifically if you have to put several sts in the same st.
 - Due to the symmetry of the mosaic pattern, there is no strict top or bottom to the cowl; it can be worn either way.
- If you choose to work with one CC and one MC, the more contrasting your color choice, the more your pattern will 'pop'.

Finishing

Weave in ends. Wash and block to measurements. This will help to obtain the measurements, sharpen your stitch definition and add to a more supple drape.

About the Designer: Lilinette Crochet

Lili, the designer behind Lilinette Crochet, was born and raised in the north of the Netherlands. She spent her school years in a public Waldorf school where she learned about art, architecture, wood, metals, working with her hands, head, and heart. This is also where she learned to work with yarn. In school she was fortunate enough to learn spinning, knitting, crocheting, mending, embroidery, weaving, and sewing.

After many years of working on and off with yarns, she started as an indie crochet designer in December 2017. Lili likes to work with diversity, both in terms of techniques as well as yarns and colors. She is also passionate about slow fashion and finding ways to reuse and recycle materials. Many of her yarns come from

thrift stores and other second hand sources. Colorful designs is what she's known for.

Chart

Chart Instructions

The chart depicts one full pattern repeat. The chart is worked twice around each rnd, joined and worked in the round. The rnds are alternating black and white rnds (see column at right of chart). Black rnds (uneven numbered rnds) are worked in MC, white rnds (even numbered rnds) in C1-C13. The chart should be read from right to left, starting in the bottom right corner.

- **The first rnd of the pattern** is worked in black (MC) ONLY and every stitch is a sc in BLO. Don't let the white boxes throw you: they're only there for you to work Rnd 2 correctly.
- Black Rounds
 - o Every square above a white square represents one sc in BLO of st.
 - o Every square above a black square represents an mdc in the FLO of that st 2 rnds below - i.e., when working row 14, the mdcs are placed in the FLO of rnd 12.
- White Rounds
 - o Every square above a black square represents one sc in BLO of st.
 - o Every square above a white square represents an mdc in the FLO of that st 2 rnds below.
- **The last rnd (52) of the pattern** is a black rnd, worked with scs in BLO of every st and is not part of the chart.
