

Crocheted Corset

Crocheted Corset

design by Jennifer Hanson

A “come hither” corset is all about the details. Tunisian crochet is worked in short rows to shape the body; single crochet covers the boning and knitted picot edging trims the bustline.

NOTES

- 1) Boning is initially cut long to ensure sts do not fall off while working. Boning ends will be trimmed and covered during finishing.
- 2) Corset is worked from back to middle in 2 halves and then joined.
- 3) Actual size of garment is smaller than the dimensions of the garment when worn since the corset is meant to be worn stretched. Use the following as the minimum body measurements to select size. (If waist measurement falls between finished measurements, choose smaller size.)

STITCH GLOSSARY

Tss (Tunisian Simple Stitch) Tss rows are worked in 2 passes, a forward pass—in which lps are worked onto hook, and a return pass—in which lps are worked off hook. The work is not turned during this st. Each row specifies instructions for both the forward and the return pass.

The forward pass is worked behind forward vertical thread from right to left, except the last st of the row which is worked behind both the forward vertical thread and the lower horizontal thread to form a firm edge for the fabric. (For in-depth instruction on Tunisian Crochet, view www.stitchdiva.com/tutorials.aspx for a fully illustrated photo tutorial.) The return row starts with [yo, draw through 1 loop then yo, draw through 2 lps] (counts as first return stitch), then [yo, draw through 2 lps] until end of row and only one loop remains on hook. When instructions indicate to TSS a specified number of sts for the forward pass do not include the first loop on the hook at the beginning of the pass as a st.

Tss2Tog On forward pass, insert hook through 2 forward vertical strands, yo and pull through both sts.

TssInc On forward pass, insert hook through 2 forward vertical strands.

BSC (Note See page 80 for close-up.) Work 2 rows of sc around boning as foll: Switch to standard crochet hook, ch 1 and hold boning in front of work. *Insert hook through forward vertical bar of next st from right to left, then to the back of work, yo, pull through lp. Yo, pull through 2 lps over boning to form st around boning; rep from * across until last st. Work last st under vertical bar and lower horizontal thread of st. Ch 1, turn. For 2nd row of BSC, work row of sc around boning, in between the

sts of previous row. Work last st through the same st as the first st of previous row. Turn work and switch to tunisian hook.

SHAPING ABBREVIATIONS

Note Work shaping 2 sts in from the top and bottom edges of corset.

TssIncBeg Tss 2 sts (3 lps on hook), Tss inc.

TssIncEnd Tss to last 3 sts, TssInc, Tss to end.

TssDecBeg Work 1 Tss (2 lps on hook), Tss2Tog.

TssDecEnd Tss to last 4 sts, Tss2tog, Tss 2 sts.

CORSET

Right half—Panel #1

Beg at lower edge, with B and standard hook, ch 87.

Rows 1 and 2 Attach first bone: Work BSC into 2nd ch from hook, 1 BSC in each ch to end and back. Ch 1, turn—86 sts. **Rows 3 and 4** Attach second bone: Work BSC into sc sts of previous row. Change to A for final yo of last st of row 4—86 sts. **Row 5** Cont with A, work even in Tss—86 sts. **Row 6** (TssDecBeg XS only), Tss to end. Change to B for last yo of return pass—85 (86, 86) sts. **Rows 7 and 8** Attach third bone: Work BSC into vertical threads sts of previous row. For 2nd row of BSC, sc2tog the 3rd and 4th sts from each end of the row. Change to A for final yo of last st of row 8—83 (84, 84) sts. **Row 9** Tss across (then TssDecEnd for XS only). Return—82 (84, 84) sts. **Row 10** Work Short Row: TssDecBeg, tss to end—81 (83, 83) sts. **(XS only)** For return pass, work 43 sts off hook only. **(S and M only)** Work all lps off hook. **Next row (S and M only)** Tss across (S—TssDecEnd). S—For return pass, work 43 sts off hook only. M—Work all lps off hook—81 (82, 83) sts. **Next row (M only)** TssDecBeg, Tss across. For return pass, work 43 sts off hook only—82 sts. **Next row/top** Tss across (TssDecEnd for XS, S). For return pass, work 29 sts off hook only—80 (81, 82) sts. **Next row/top** Tss across (TssDecEnd for M). For return pass, work 19 sts off hook only—80 (81, 81) sts. **Next row/top** Tss across, TssDecEnd. For return pass, work 7 sts off hook only—79 (80, 80) sts. **Next row/top** Work Tss across, TssDecEnd. For return pass, work all lps off hook—78 (79, 79) sts. **Next row/bottom** (S and M—TssDecBeg), Tss 11 sts total. Return—78 (78, 78) sts. **Next row/bottom** TssDecBeg, Tss 1 more st. Return—77 (77, 77) sts. **Next 2 rows** Attach fourth bone with B as before.

With B, work first row of BSC into tss sts of prev row. For 2nd row of BSC, us sts to join right half of corset to left half of corset. Lay the right half of the corset in position for joining, with the WS of

both halves of the corset facing. Join corset by a modified 2nd row of the BSC as foll: Insert hook in between sts of previous row, yo, pull up a loop. Insert hook through edge vertical bar on right corset, yo, pull through all lps on hook including vertical bar on corset. Cont in this way for every st to end. Tie off. 78 (78, 78) sts.

FINISHING

Holes must be made in ends of boning to secure it within corset. Prior to marking hole locations, make sure fabric is evenly distributed around boning without puckering or stretching. Mark hole locations on boning that are 2 to 3 yarn strands in from edge of work on each side of bone and ensure that spacing between boning holes on mirror bones are of equal distance. To make holes, temporarily compress edge stitches to keep them out of the way while holes are made. One easy method for holes is to heat the point of a nail over a candle flame and melt hole through boning end. Trim ends of boning as close to the hole as possible. Leaving just over 1/6" of boning from hole edge to boning tip, use nail file to round the ends of boning and file smooth. Smooth out boning sts. Using tails of B or extra 8"/20.5cm lengths of B as appropriate, thread yarn through boning holes from WS to RS, loop yarn around 3rd vertical thread from end of each BSC row, and bring yarn back through hole from RS to WS. Run the thread a couple of times over the tip of the bone, under RS threads and through the hole in order to enclose bone tip, but be careful to only do this a couple of times to avoid adding bulk to the edge of the bone. Secure thread with a knot and weave in ends along WS of boning.

Corset edging

With RS facing, attach B to ch somewhere along back edge of corset. Sc in each ch, making 3 sc at corners and sc evenly along the edge of the Tunisian crochet fabric. At boning, ch 1, then cont to sc in sts on other side of boning, working all the way around. Join to first st with sl st. Tie off.

Attach rings

With B and tapestry needle attach 30 rings (15 on each side) to back of corset at edge of bone #1. Space rings evenly down 2 back sides between 2 sc, each ring will attach to back through both sts. For each ring bring tapestry needle from WS to RS between first st joining the 1st and 2nd bones (st #1), then through the sc edging stitch directly above on the 1st bone from RS to WS (st #2). Bring tapestry needle through the ring and back through st #1 from WS to RS, then from RS to

*For all pattern-related inquiries please visit www.vogueknitting.com

WS through st #1 and through the ring on the WS. Rep this 3 or 4 times, then insert tapestry needle through the stitch adjacent to St #1 (st #3) from WS to RS and rep this process using sc directly above st #3 and adjacent to st #2 (st #4). As the tapestry needle is inserted through st #4 for last time, work the needle to outside of ring and bottom edge of ring, then through st #2 from WS to RS in order to secure ring. Rep this 2 or 3 times. When complete, run yarn behind sts on WS of boning to next ring attachment point and attach next ring.

Lace ruffle

With knitting needles, make lace edging as foll:

Narrow edging With C, cast on 6 sts. **Row 1** K6. **Row 2** K2, [yo] twice, k2tog, [yo] twice, k2—9 sts. **Row 3** Sl 1, [k2, p1] twice, k2. **Row 4** K9. **Row 5** Bind off 3, k5—6 sts. Rep rows 1—5 until edging fits along inside at top of corset.

Deep edging With D, cast on 8 sts. **Row 1** K8. **Row 2** K2, [yo] twice, k2tog, [yo] twice, k2tog, [yo] twice, k2—12 sts. **Row 3** Sl 1, [k2, p1] 3 times, k2. **Row 4** K12. **Row 5** Bind off 4, k7—8 sts. Rep rows 1—5 until edging fits along inside at top of corset.

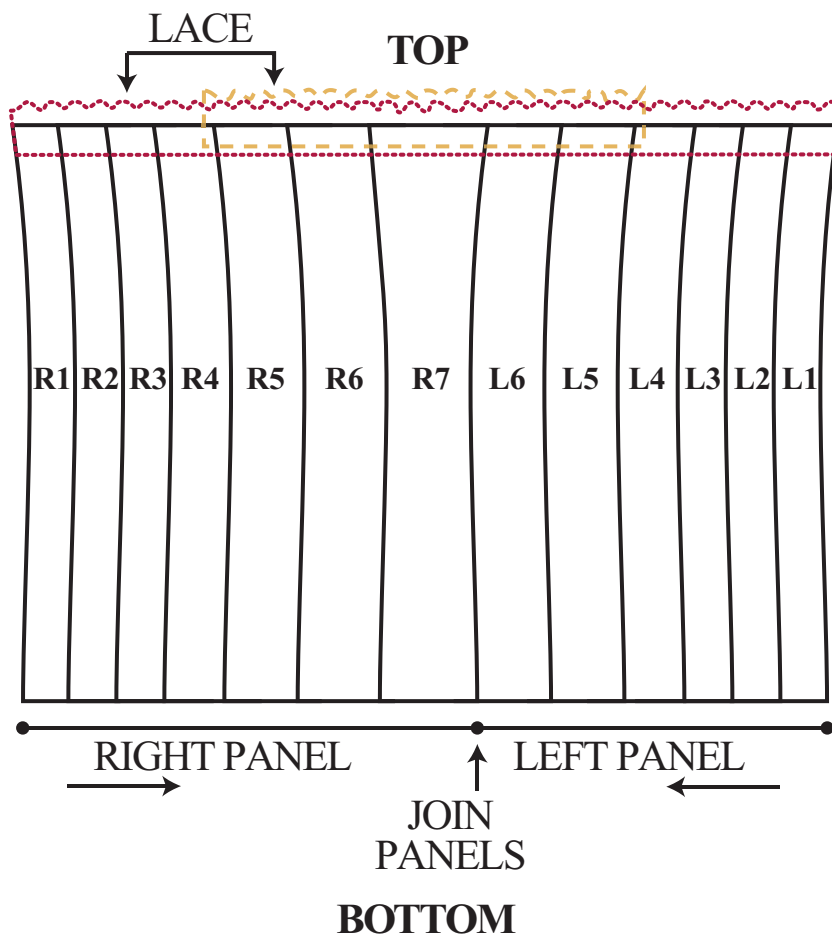

Stretch well to enhance lace pattern and block edging to fit between the bones indicated in the diagram. Center narrow edging across middle 5 panels of corset so that only the tips peek out on the RS as pictured. Sew to WS of corset. Then center deep edging so that the bottom of the edging lines up to the bottom of the narrow edging. Sew to WS of corset.

Cords

Make 2 twisted cords using C, one a little longer than 3yd/2.75m long, the other 4½yd/4.15m long (both are finished lengths). Lace up the corset as foll: with longer cord, lace the top 9 pairs of rings

starting at the top of the corset and ending at the waist. With shorter cord, loosely lace the bottom six pairs of rings, beg at bottom and ending at waist.

To wear, unlace the bottom 4 rings or so of the top lacing and extend the corset as wide as it will go. Adjust the corset on the body so that the waist is in the proper place, have someone tighten the laces, working from the top down and bottom up. The bust and hip areas should be left comfortably loose. The only area meant to be worn tight is the rib cage down to the waist. Tighten this area in stages, tighten a bit, wait a bit then tighten some more. ❖
