Notes

Piece is worked in spiral rounds using double-ended circular Tunisian crochet technique. A Tunisian crochet round consist of two passes: the main color (MC) is always used for the RS-facing forward pass to pick up loops, and the contrast color (CC) is always used for the WS-facing return pass to work lps off from the opposite end.

Rib pattern is created by working Tunisian simple stitches (tss) and twisted Tunisian simple stitches (twts) in to the stitch of the same type one row below. The wave pattern is created using increases and decreases, which will manipulate the ribs.

Use stitch markers to indicate pattern repeats. Contrasting color marker is used to mark the beginning of the round. Move markers up as work progresses.

Stitch Guide

Twisted Tunisian simple stitch (twts):

Insert hook from left to right under next vertical bar, yo, pull up lp.

Back bar increase (bbinc): Insert hook from front to back in ridge of return pass chain behind indicated st.
