Twisting faux cables

The 2nd set of 20-chains form a cable created with a form of finger knitting. To make the faux cable, twist the first 'rung' of the ladder to form a loop, *pull the next rung through the current one and twist to form a loop; rep from * to end. Sew final loop in place so that it won't unravel, leaving a space to pull the fringe through.

Braided fringes

(make 2, one for each end)

Using 1 whole ball of each color, cut fringe lengths for the braid 47"/119cm long. Using half for each end, fold in half to form a loop, thread loop through end loop of braided section and pull ends through loop to secure. Divide fringe into 3 sections and braid. Make a slip knot in the middle of a double strand of yarn 15"/38cm long, lasso the bottom of the braid and pull tight. Wrap and knot it many times, secure and feed through the tail of the braid with a needle or small hook.

Trim braid ends with sharp scissors to get a neat finish. Sew the buttons in place to help secure the braided ends. ●
