White Russian P2

Design by Merri Purdy
merripurdy@verizon.net

Materials List:

- 450 - 500 yards worsted weight fiber - MC
(Fiber used in sample: Deborah Norville Everyday Soft Prints 100% acrylic)
- 355 - 400 yards worsted weight fiber - CC
(Fiber used in sample: I Love This Yarn Solids 100% acrylic)
- 5.5 mm (I) hook or hook appropriate for your yarn selection
- 6.0 mm (J) hook or hook appropriate for your yarn selection
- 2 -1 inch buttons (optional - decorative only)
- Stitch markers (3)

Stitches/Abbreviations Used:

(BLO) back loop only	(sc) single crochet
(ch) chain	(sc inc) single crochet increase (sc, ch2, sc)
(hdc) half double crochet	(Sl st) slip stitch
(hdc inc) half double crochet increase(hdc, ch2, hdc)	

Gauge: Shawl Collar in I hook: 9 sts and 9 rows in sc = 2"
Body of shawl in J hook: 9 sts and 4 rows in hdc = 2"

Pattern Notes:

- Pattern directions use American crochet terminology
- Collar is worked back and forth in rows
- Body of the shawl is worked in the round
- For my sample project I worked the main color (*shawl collar*) in a multicolored print using an I hook
- The body of the shawl was worked in a contrasting solid fiber using a J hook
- Tension varies from person to person. Because gauge is not essential for this design, I encourage you to use the hook size to accommodate your own personal preference
- The ch(s) at the beginning of a round or a row do not count as a stitch (unless indicated)

Poncho Body:

Before you can begin to work the body of the poncho, you will need to fold your collar (rectangle) and add temporary stitch markers to assist with proper placement. Complete the following steps.

1. Lay your rectangle on a flat surface with the finishing tail end to your top left.
2. Take the time to measure the width of your rectangle. (*Mine measured 10".*)
3. Using a measuring tape, measure 10" from the bottom left of your rectangle and place a st marker. (*See photo A*)
4. Measure 10" from the bottom right of your piece and place a st marker.
5. Fold the right hand side of your rectangle in toward the marked st on the bottom left. Attach the top right corner of your work to the marked st on the bottom left. (*See photo B*)
6. Fold the left hand side of your rectangle in toward the marked st on the bottom right. Attach the top left corner of your work to the marked st on the bottom right. (*See photo C*)
7. Line up the center points (at the bottom of your work) and hold in place with a st marker.
8. You are now ready to begin working on the body of the poncho.

Photo C

Poncho Body: Completed in Contrasting Color and a size J (6.0 mm) hook.

Rotate your work so that the lower center point is now at the top. Using contrasting color, attach yarn to marked sts to the right of your work. *(In my photo to the right, my hook is pointed to the marked st where you will attach your contrasting yarn.)*

Round 1: With larger hook, and working through both layers of your fabric, sc along the outer edge of your poncho toward the top center sts. *(For me, I worked a total of 45 sc sts to the center.)* Sc increase (sc, ch 2, sc) in center st. Place a stitch marker in the center st. Continuing to work through both layers, sc along opposite side edge to marked sts for 45 sts. Continue to sc in each st along top collar edge until you reach the start of the round where you joined your new yarn.

Count the stitches along the top edge of your poncho (where you have a single layer of sc) and place a st marker in the center st. This is where you will increase each time you come to this location. *(For me, I worked a total of 77 sts along the top edge. I placed my st marker in st 39 and had 38 sts on each side of this marker.)*

From this point on you will work in continuous rounds without joining. It may be helpful to place a st marker in the first st of each round, moving up as you work a new round.

Round 2: Working in the back loop only here and throughout, hdc in each st. When you reach the center marked sts, place a hdc increase (*hdc, ch 2, hdc*) in these stitches.

Round 3 - 19: Repeat Round 2. At the end of round 19, sc in the blo of a couple of sts, then sl st in next st. Fasten off.

Note: If you wish to make your poncho longer, continue working rounds in the back loop only using hdc. When you have reached your desired length, simply follow directions for completing round 19. If you did not use a stitch marker to identify the start of each round, don't worry. Simply end on the same side that you began.

Border: Worked in Main Color and size I (5.5 mm) hook. Worked in BLO.

Round 20: With smaller hook and main color, join yarn just to the left of center BACK. Ch 1, sc in blo in same st and each st around, placing sc inc in center front and center back. Join with a sl st.

Round 21: Ch 1. Hdc blo in same st, sl st blo next st. Continue to crochet in blo alternating between hdc and sl st around, placing hdc inc in center front and center back. Join the round with a sl st.

Round 22 - 25: Repeat round 21. At the end of last round, join with a sl st, fasten off (or continue to desired length.)

Note: It is essential to the design of this poncho that the border be worked in turning rounds. What is most important to remember is that along the side edges for these rounds you will always place a hdc st in a sl st from the previous round, and that a sl st will be placed in a hdc st from the previous round. Do not worry if you have two of the same st next to each other at the center points. It will not be obvious.

Finishing:

- Use a tapestry needle to weave in any ends.
- If desired, sew on a button to the shawl collar where fabric overlaps, or wear with a shawl pin.

Enjoy your new poncho!
