FINISHING:

Block before assembly. To calculate the thread length for each seam measure $1\frac{1}{2}$ times the length of the seam. Pay attention to match pattern stitches when joining panels. Pin the seams together if necessary.

With wrong side facing, fold the panel along in two equal parts. Beginning at side edge, sew $16\frac{3}{4}$ " (42.5cm) shoulder seam, leaving approx. $11\frac{3}{4}$ "(30cm) unsewn for neck opening.

With right side facing, fasten on yarn at fold line end with sl st and work one row sc evenly spaced around entire edge of neck opening. Fasten off and weave in all ends.
