*There are larger photos on the last page.

Materials

- Yarn: Worsted Weight / 4 / see page 2 for yardage
- Crochet Hooks: I/9/5.50mm, G/6/4.00mm
- Yarn Needle
- Buttons: (4-5) 1-1/2" diameter
- Hook & Eye: (2) skirt/pant size (suggested, not mandatory)
- Collar Style #1
- Snap (1) Collar Style #2

Experience Level

- Intermediate

Gauge

- In pattern st (sc in next, hdc in next): 11.9 sts X 10.33 rows = 4"

Sizes *See Chart on Page 2

- Women's Sizes: XS, S, M, L, XL, 2X

Notes:

- Beginning ch(s) are not included in st count unless noted otherwise.
- Entire jacket is worked holding 2 strands of yarn together as one.
- I tend to crochet tightly. If you do not, you may need to adjust your hook sizes to achieve proper sizing.
- **Color Changes:** Every color change is worked the same (unless noted). On the last pull thru, of the last st of the row/round, pull thru the new color.
- **Main Color (MC) vs. Alternate Color (AC):** The Main Color noted throughout the pattern is the color that will pop most. I suggest using your lighter color as your MC because it is harder to see the pattern stitch with darker colors. In these photos, the main color is white.
- **Yarn Notes:** Red Heart With Love was used for the prototypes in the pattern photos.
- **Note:** If you've made the Girl's version, the gauge between the two patterns is not the same.

Stitch Guide

- MC: Main Color; AC: Alternate Color
- ch: chain
- sl st: slip stitch
- sc: single crochet
- hdc: half double crochet
- sc2tog: single crochet 2 together
- rev sc: reverse single crochet / crab stitch
- ext sc: extended single crochet (see below)
- st(s): stitch(es)
- RS/WS: Right Side / Wrong Side

Tips:

- To save time, crochet over each tail end of yarn as you go. Be sure not to pull the tails in too tightly or this will affect the overall height & width of your garment.
- To keep my garment from getting fuzzy as I work, I put it in a clean plastic grocery bag once I get to the body of the garment and finish it with it in the bag. This helps to keep it from rubbing on my clothing as I'm crocheting.

Extended Single Crochet (ext sc): Insert hook into stitch indicated, yo, pull up a loop, yo, pull thru 1 loop on hook, yo, pull thru remaining two loops on hook.

Size Chart & Length Notes

	Bust Size	Sleeve Length	Jacket Length	Yardage
Extra Small	32"	17"	29-1/2"	1550
Small	34"	17-1/2"	30"	1650
Medium	39"	18"	30-1/2"	1780
Large	41"	18-1/2"	31"	1900
Extra Large	46"	19"	31"	2000
2 XL	49"	19-1/2"	32"	2300

*Note: The Bust Size listed in the table to the left is your bust size, not the finished size of the jacket.

General Notes & Suggestions Regarding Jacket & Sleeve Length

- **Choosing Your Size:** If you'd like a more fitted jacket to be worn with a fitted top, choose a size smaller than you normally would as this design was created with 2-4" of positive ease. You can also measure across the back of your favorite jacket and compare it to the size written for the back panel (this may help you choose the right size for you). You can easily lengthen the sleeves and jacket no matter which size you choose to make. There are also notes written within the pattern to help you customize the size of your jacket through the hips because, as we are all well aware, not everyone has a perfect hourglass shape. ;)
- **Sleeve Length:** The pattern is written using the average sleeve length for each particular size. It can be easily lengthened or shortened for a more custom fit by simply increasing or decreasing the number of rounds by a multiple of 2. Make sure to end with an AC round.
- **Jacket Length:** The pattern is written so that the jacket length falls 3-4" above the knee. It can be easily lengthened for a more custom fit by simply increasing the number of rows by a multiple of 2. Make sure to end with an AC row.

General Gauge Information

- As we all know, meeting gauge in a pattern is extremely important. I often hear or read about many struggling with meeting gauge, because after all, we don't all crochet exactly the same. Many will say, "I've met the gauge width, but my height is off". Did you know there's a simple explanation for this? And an easy fix? ☺
- Find out if you're a Yanker, Rider or a Lifter by watching this little gem of a video that I happened to come across. Deja Jetmir from Crochet Ever After has done a fantastic job explaining how and why your gauge height may be off. I suggest bookmarking this link to keep it for future reference.

- **TIP:** When working over your ends, make sure not to pull the loose ends too tightly or this can greatly affect the overall size of your jacket. I've had several do this on the girls' version, but once they loosened their ends, their jackets were much closer to the correct gauge/size.

Body of the Jacket

Row 1: (MC) With Wrong Side facing you, join yarn w/ a hdc in st where you placed a st marker from Row 22 of front right panel, sc in next st, [hdc in next st, sc in next st] repeat from [to] across front right panel, ch 1, join yarn w/ a sc in 1st st of back panel, hdc in next st, [sc in next st, hdc in next st] repeat from [to] across back panel, ch 1, join yarn w/ a hdc in 1st st of front left panel, sc in next st, [hdc in next st, sc in next st] repeat from [to] across front left panel. – 116 sts

Note Regarding Back Pleats: Rows 5 thru 19 create pleats in the back of the jacket. If you would rather not have pleats in your jacket, simply repeat Rows 2 - 4 for Rows 5 - 19. Then continue to the next note below regarding hips. *Note that if you remove the pleats, it will widen the back of your jacket a bit so make sure to try it on for fit before completing the entire length.

Row 5: (MC) Ch 1, Turn, [hdc in next st, sc in next st] work from [to] 11 times, hdc2tog, sc2tog, [hdc in next st, sc in next st] work from [to] 32 times, hdc2tog, sc2tog, [hdc in next st, sc in next st] work from [to] 11 times. – 112 sts

Important Notes for Hips:

- If your hip measurement is a little smaller than your bust measurement, continue on to Row 20 and complete your jacket.
- If your hips are larger than your bust, you may want to add additional increases to your jacket in the next few odd numbered rows. Use Row 19 as a guide to adding more increases. Testers who needed to add additional increases, added an average of 8 sts.

Rows 20 thru 55: (Alt rows worked in AC then MC) Ch 1, Turn, [hdc in next st, sc in next st] repeat from [to] across. – 108 sts

Note: You can easily adjust the length of your jacket by working rows in multiples of 2 and ending with an AC row. Fasten off. Weave in ends. Continue on to Sleeves on page 17.

Note Regarding Back Pleats: Rows 5 thru 19 create pleats in the back of the jacket. If you would rather not have pleats in your jacket, simply repeat Rows 2 - 4 for Rows 5 - 19. Then continue to the next note below regarding hips. *Note that if you remove the pleats, it will widen the back of your jacket a bit so make sure to try it on for fit before completing the entire length.

Row 9: (AC) Ch 1, Turn, [hdc in next st, sc in next st] work from [to] 21 times, hdc2tog, sc2tog, [hdc in next st, sc in next st] work from [to] 39 times, hdc2tog, sc2tog, [hdc in next st, sc in next st] work from [to] 21 times. – 166 sts

Important Notes for Hips:

- If your hip measurement is a little smaller than your bust measurement, continue on to Row 24 and complete your jacket.
- If your hips are larger than your bust, you may want to add additional increases to your jacket in the next few odd numbered rows. Use Row 23 as a guide to adding more increases. Testers who needed to add additional increases, added an average of 8 sts.

Rows 24 thru 63: (MC then AC) Ch 1, Turn, [hdc in next st, sc in next st] repeat from [to] across. – 162 sts

Note: You can easily adjust the length of your jacket by working rows in multiples of 2 and ending with an AC row.

Collar Tutorial *The jacket in the photos is a size 18m, but techniques are the same for the women's size.

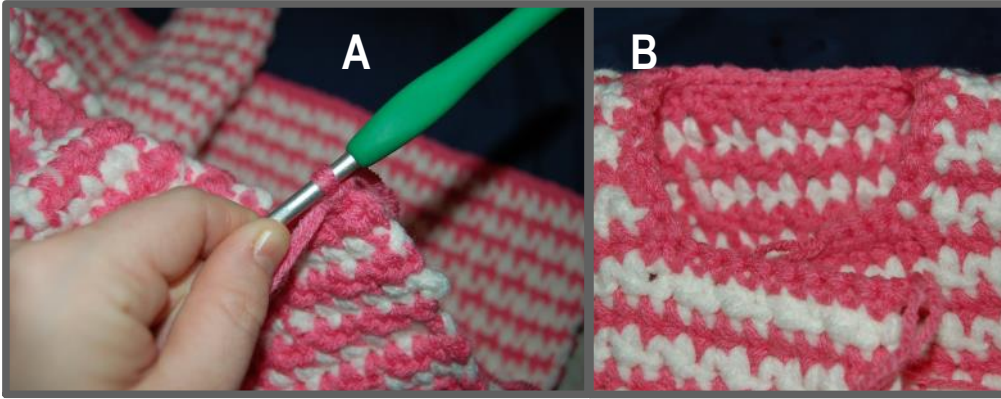

Photo A shows the inside of the jacket facing you and a join w/ a sc in the corner of the *Front Left Panel*.

Photo B shows Row 1 of the collar complete and the jacket turned *right side out*.

Photo C: Shows Row 2, join w/ a sc in the 17th to the last st of Row 1.

Photo D: Shows a few more stitches worked in Row 2.

Photo E: Shows what your collar will begin to look like on the *right-hand side*. This is the beginning of the 4th row of the collar.

Note: The slit created between Rows 1 & 2 is for the *left-hand side* of the collar to fit in when worn.

Photo to the right shows the completed collar on the 18 month size jacket.

See the next page for collar & jacket edging.

See pages 20 - 22 for the tutorials on how the collar and jacket fit together when worn.

Collar & Jacket Edging

Collar Edging~ Each edge of the collar is edged using a reverse single crochet (rev sc) (some refer to it as a crab stitch). Fold the collar down, with the Right Side facing you, join AC yarn w/ a sc in the corner on your far left, rev sc in the end of each row across short side of collar. Fasten Off. Weave in ends. Repeat for the opposite side of the collar. See photos below.

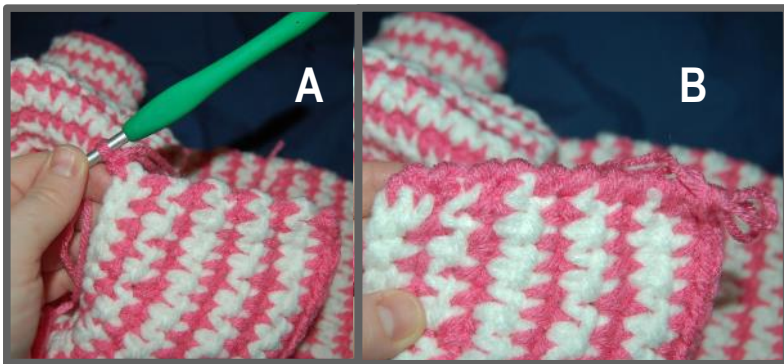

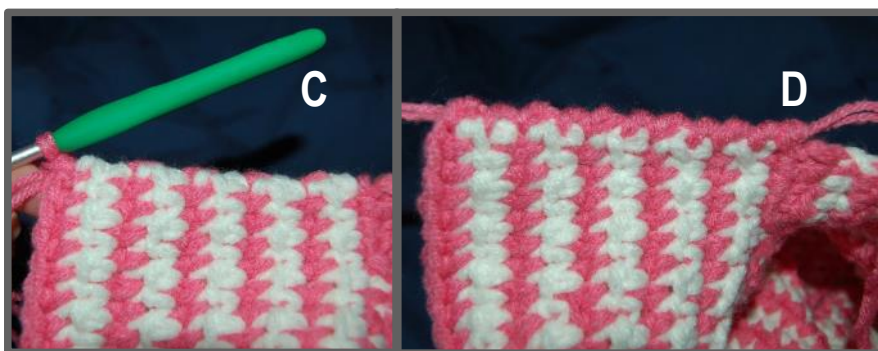

Photo A shows where to join your yarn to begin the rev sc on the *right edge* of the collar.

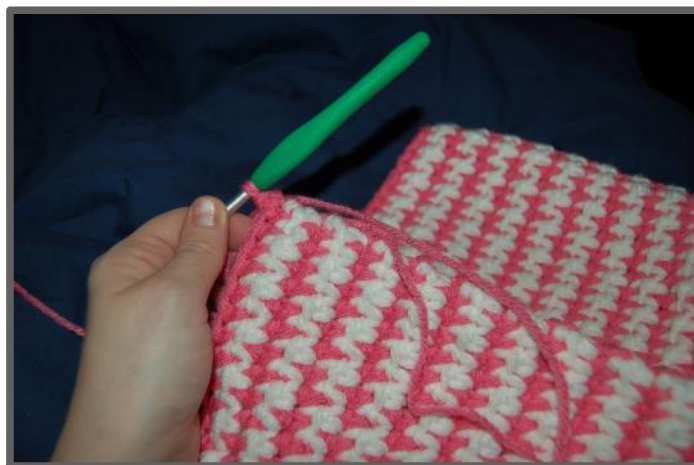

Photo B shows the edging on the *right edge* of the collar complete.

Photo C shows where to join your yarn to begin the rev sc on the *left edge* of the collar.

Photo D shows the edging on the *left edge* of the collar complete.

Jacket Edging~ The only edges of the jacket that you will edge are that of the front opening of the *Body of the Jacket*. You will use the reverse single crochet (crab stitch) to edge the front opening of the jacket. With the Right Side Facing you, join AC yarn w/ a sc in the corner on the far left, rev sc in the end of each row across the opening of the jacket. Fasten Off. Weave in ends. Repeat for the opposite opening edge. See photos below.

Collar Styles & How They Fit Together: Style #1

The tutorial on this page is for the collar style shown in the photo to the right. Continue on to page 22 for collar style #2.

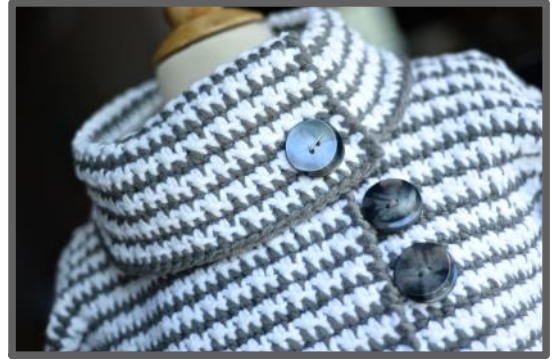

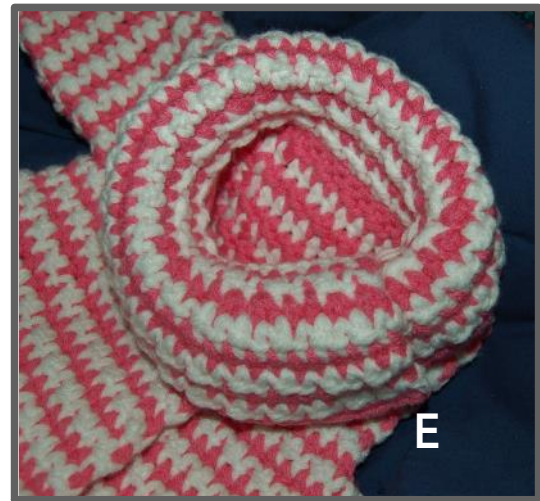

Photo A: Shows your completed collar (minus the edging).

Photo B: Shows the split between Row 1 & 2 of the *right-hand side* of the collar. The *right-hand side* of the collar overlaps the *left-hand side* of the collar. The *left-hand side* of the collar fits in the slit. The *front right panel* overlaps the *front left panel*.

Photo C: Shows another view of the *right-hand side* of the collar overlapping the *left-hand side* of the collar.

Photo D: Shows yet another view of the *right-hand side* of the collar overlapping the *left-hand side* of the collar and the *front right panel* overlapping the *front left panel*.

Photo E: Shows the collar in place.

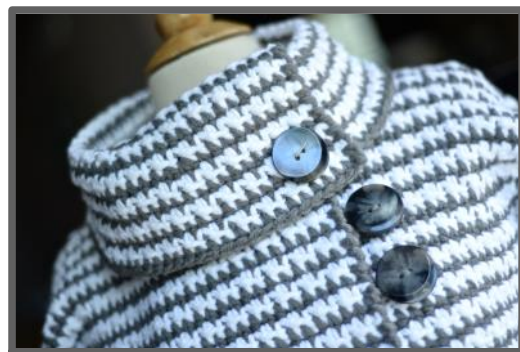

Continue on to the next page for adding a hook and eye (or snaps) to this style collar.

Attaching Buttons & Hook & Eyes to Collar Style #1

Collar Button

Collar Button is for decorative purposes only. Position it wherever it looks aesthetically pleasing to you and sew it on using a yarn needle and piece of yarn. See photo to the right.

Hook & Eye or Snap

A hook & eye, or snap, are suggested, but not mandatory. They will help your collar stay in place. Sew the hook & eye or snap between the 2 layers of the collar inside the neck opening (as shown in the photo to the right). Be careful not to sew thru the entire thickness or your thread will show on the outside of the collar and jacket.

Continue on to the next page for Collar Style #2, or to page 23 for adding buttons to your jacket.

Collar Styles & How They Fit Together: Style #2

The tutorial on this page is for the collar style shown in the photo to the right. See the previous 2 pages for collar style #1.

Photo A: Shows your completed collar. Close the front of the jacket by bringing the right front over the left front. The pink arrow points to the split between Rows 1 & 2 of the right-hand side of the collar.

Photo B: The *left-hand side* of the collar fits in the slit and overlaps the *right-hand side* of the collar. You may want to fold the top edge of the *right-hand side* of the collar under a tad, depending on where you want the bottom edge of your collar to lay. See the photo at the top of the page for approximate placement. Continue below to adding snaps to the collar to keep it in place.

Adding Snaps to this Collar Style

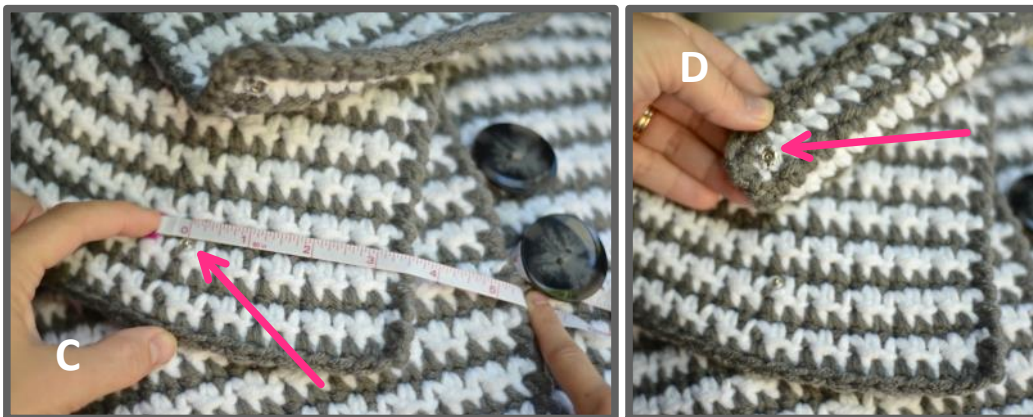

Photo C: Fold the right-hand side of the collar down. Position the snap where desired. I positioned mine 3-1/2" from the edge and 4 rows up from where my thumb is in the photo. See pink arrow. Using a needle and thread, sew the male part of the snap on.

Photo D: Sew the female part of the snap on the WS of the left-hand side of the collar, nearest the corner. When sewing this part of the snap on, only sew part way thru the collar or your stitching will show on the RS of the collar. See pink arrow.

Continue on to the next page for attaching buttons & button loops to the jacket.

Attaching Buttons to the Jacket

Jacket Buttons: With the collar folded down and the front of the jacket laid close, position your buttons where you'd like them on the *Front Left Panel*.

I prefer to sew the top button on around the 9th row down from the neck edge and in approximately 1-1/2" from the front opening edge of the jacket. And the 2nd button on around the 13th row down from the neck edge. Sew them on using a yarn needle and yarn. See photo to the right.

Button Loops

Using 2 strands of your AC yarn and a G/6/4.00mm hook, join yarn w/ a sc in the end of the row (on the *Front Right Panel*, over the edging) that's in line with your button (in the end of the 9th row down from the neck edge for the top loop and in the 13th row down from the neck edge for the bottom loop, if you followed the button placement on the previous page), Ch 13, sc in the end of the same row (on the *Front Right Panel*, over the edging). Fasten off. Weave in ends. Repeat for the 2nd button loop. See photo to the right.

Cuff Belts (Make 2)

Note: Cuff belts are made with a single strand of yarn of each color. I carried each color across the next row until I needed to pick it back up. Make sure your old color is pulled snug (but not too snug that it cinches your work inward) before using it again (to keep loops from forming). Carry all colors on the WS of the belt so they're not seen on the RS. See photo below.

Row 1: (MC) Using an I/5.50mm hook, ch 7, sc in 2nd ch from hook, hdc in next ch, (sc in next ch, hdc in next ch) twice. Turn. – 6 sts

Row 2 (RS): (AC) Ch 1, (sc in next st, hdc in next st) across. Turn.

Row 3: (MC) Ch 1, (sc in next st, hdc in next st) across. Turn.

Repeat Rows 2 - 3 until your cuff belt measures 1.5" more than the circumference of your cuff. End w/ a Row 3 repeat. Fasten off. Weave in ends. Continue on to Attaching Cuff Belts to Sleeves.

Photo to the right shows how I carried my yarn when making the cuff belts. *Photo of the RS of the belt.

Continue on to the next page...

Attaching Cuff Belts to Sleeves

*See photo to the right.

Step 1: Wrap the belt around the sleeve, overlapping 1.5" so that the overlap is pointed towards the back of the sleeve.

Step 2: Line up the bottom edge of the belt near the middle of the 8th row from the bottom edge of the sleeve.

Step 3: Position a 1.5" dia. button so that the outer edge of it is approx. 3/4" from the edge of the cuff belt. I positioned mine so that it's close to being in line with the shoulder seam. (the edge of the cuff belt is just a little behind that imaginary line from the shoulder seam).

Step 4: Using a yarn needle and 12" length of yarn, sew the button and cuff belt onto the sleeve. Begin from the inside of the sleeve and sew thru all layers, up thru the button and back down thru the cuff belt and sleeve. Once button is secure, fasten off. Tack stitch the cuff belt on the opposite side of the sleeve, if desired. Weave in ends.

Waist Belt

Note: Belt is made using only 1 strand of yarn.

Row 1: (AC) Ch 6, ext sc in 2nd ch from hook, ext sc in each ch across. Turn. – 5 sts

Row 2: Ch 1, ext sc in each st across. Turn.

Repeat Row 2 until belt measures approximately 10" more than the waist of your jacket, if using a buckle. If making it long enough to tie, repeat Row 2 until it measures approximately 24" longer than the waist of your jacket, or desired length.

Fasten off. If using a buckle, fold one end of the belt over one side of the buckle and sew together to attach the buckle.
